This diagram shows the exploded view of a car seat headrest assembly. The components are numbered as follows:

- 1: Upper part of the headrest cover.
- 2: Upper part of the headrest cover (inner).
- 3: Upper part of the headrest cover (outer).
- 4: Lower part of the headrest cover.
- 5: Lower part of the headrest cover (inner).
- 6: Lower part of the headrest cover (outer).
- 7: Headrest cushion.
- 8: Headrest cushion (inner).

1	Left Earbud
2	Multi-function Button of Left Earbud
3	Left Earbud LED Indicator / Built-in Microphone
4	Charging Port of Charging Case (at the back)
5	Charging Indication for Earbuds
6	Earbud Charging Slots
7	Digital Display of Charging Case
8	Right Earbud

The Charging Case and Bluetooth Earbuds come with a built-in rechargeable battery. Before using it for the first time, please charge the battery fully. Recharge the battery by following either one of the methods below when needed.

Plug the Type-C end of the included Type-C charging cable into the charging port of the Charging Case. Plug the other end into a suitable USB port such as the one on your computer or other devices made for charging USB. Digital display will flash to show the battery capacity of charging case.

It takes less than 2 hours to fully charge the case. When the battery is fully charged, 100 will show on the digital display.

1. After fully recharging the Charging Case, disconnect it from charging.
2. Place the Bluetooth Earbuds into respective charging slots correctly.
3. The LED light indicator on the Earbuds turns white and the digital display on the Charging Case will show its remaining battery capacity.

It takes less than 2 hours for the Earbuds to fully charge.

When the battery is fully charged, the white LED light will turn off, and the digital display on the Charging Case will also turn off soon.

Remove the Earbuds from the Charging Case, it will turn on automatically (Or, if the Earbud is not stored inside the Charging Case long press the multi-function button of the Earbud to turn ON.)

Long press the multi-function button of the Earbud to turn OFF the device. Alternatively, place the Earbuds back into the Charging Case; it will turn off for recharging automatically.

- Remove both Earbuds from the Charging Case, it will turn on automatically and the LED flashes white (*Or, if both Earbuds are not stored inside the Charging Case, long press the multi-function button of the Earbuds to turn ON).

- (An indication tone will be heard and the LED flashes white.)
- After few seconds, you will hear another indication tone when both Earbuds are connected together. The LED light indicator on one Earbud will flash white, and the LED light indicator on the other Earbud will turn off.
- At this point, activate the Bluetooth function on your mobile device, and search for Bluetooth devices near you.
- Once you have activated Bluetooth on your mobile device, select the "**Nizoni Earbuds**" from the list of available Bluetooth devices.
- You might be prompted with "Pair with **Nizoni Earbuds**" message or your source device, with "Cancel" and "OK" options. Please select "OK".
- Once paired successfully, an indication tone will sound and the LED on both units will turn off.

Note: An indication tone will alert you when the volume is adjusted to maximum level.

Voice Assistant is a built-in interactive feature that allows you to Start Conversation with Your Siri or Google Assistant. press and hold the multi-function button of the Earbud for 2 seconds and release to activate this feature.

This feature enables you to ask questions and seek assistance on several things from your Voice Assistant, even when you are several feet away from your phone. Below are some of the many examples.

Note: Google Assistant is available on eligible Android 5.0 devices or later. Works on Lollipop, Marshmallow and Nougat Android Phones with Google Play Services, >1.5GB of memory and 720P or higher screen resolution. Please ensure the Google Assistant App is downloaded and is the default Voice Assistant on your mobile device.

While the Earbud is paired using Bluetooth, press and hold the multi-function button for 2 seconds and release to start conversation with your Siri or Google Assistant. An indication tone may sound before you speak into the Earbud.

- Example 1: Press and hold the multi-function button for 2 seconds and release, then speak into the Earbud, how's the weather today? Voice Assistant will reply with something like "Mainly cloudy with a few showers".
- Example 2: Press and hold the multi-function button for 2 seconds and release, then speak into the Earbud, what's the time now? Voice Assistant will reply with something like "It is 8pm now"
- Set examples:
 - Set an alarm for 7am tomorrow.
 - Play some music.
 - What's in the news?

Read the following recommendations before using the Bluetooth Earbuds. Follow these and you will be able to enjoy the product for many years.

- Don't expose the Bluetooth Earbuds to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Don't use abrasive cleaning solvents to clean the device.
- Don't expose the device to extremely high or low temperatures as this will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- Don't dispose of the device in a fire as it will result in an explosion.
- Don't expose the device to contact with sharp objects as this will cause scratches and damage.
- Don't let the device fall on the floor as this may damage the internal circuit.
- Don't attempt to disassemble the device as it may get damaged if you are not professional.

Weight	Charging Case: 1.9 oz Bluetooth Earbud: 0.3 oz (each)

(Note: Battery life & charging time may vary based on usage & types of devices used.)

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

NOTE: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the product and receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
