- 12. Working Temperature: 14°F~140°F (-10°C~45°C)

V. Common Problems

Low battery may cause disconnection, in order not to affect normal use, please charge the headphone in time.

If the headphone fails to turn on, please try to charge it up first, and turn it on after fully charged.

If the battery runs out or has not been used for a long time, there may be no signal lights at the beginning of charging, but the indicator will normally light up in red after a few minutes.

No Sound from the headphone:

- Make sure the Bluetooth headphone has been turned on;
- Make sure the headphone connects to the electronic device successfully.
- Make sure the effective distance of headphone and electronic device is within 15 meters in between.
- Make sure you choose the Bluetooth device(KH22B) for music playback.
- Make sure your electronic device is within a range of strong signal without external interference.
- Check whether your electronic device has been connected to other Bluetooth devices.

The model of this headphone can not be searched.

- Make sure the headphone has entered pairing mode.
- There may be a program error on the headphone and cellphone.

Please reset the headphone (In the power-on state, press and hold the multi-function button and the volume "+" button for 6 seconds to restore the factory settings) or contact the manufacturer to repair it.

No sound can be heard from the headphone when in a call.

- Make sure you choose the KH22B for audio in/out when in a call, but not the speaker on your cellphone.
- Make sure your cellphone has not connected to other Bluetooth devices.

VI. Safety Notes

- 1. Before playing the music, please turn down the volume first to avoid hearing damage caused by excessive volume.
- 2. Disassembling personally may damage the headphone and this is not covered by warranty.
- 3. This product is not suitable for kids under 3 years old, because some small parts of it may cause choking.

4. Please clean the headphone with a clean, soft, and dry cloth.
5. This product is not waterproof, and please do not use the product in a dusty environment.
6. Do not place the product in an extreme environment, otherwise, it may be temporarily unavailable for use. The normal use temperature is -10°C to 45°C.

Happy?

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
