Children's Video Walkie-Talkie User Manual

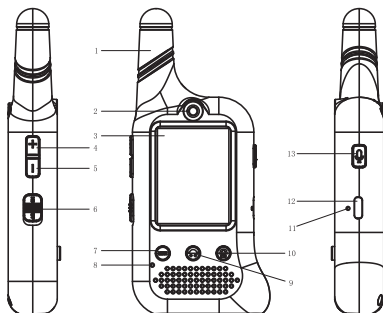

1. Appearance and Function Description

1: Antenna, 2: Camera, 3: Display screen, 4: Volume up button, 5: Volume down button, 6: Power button, 7: Sound switch button, 8: Microphone, 9: Image switch button, 10: Video call/voice call switch button, 11: Charging indicator light, 12: Charging port, 13: Call button.

2. Power On/Off Function

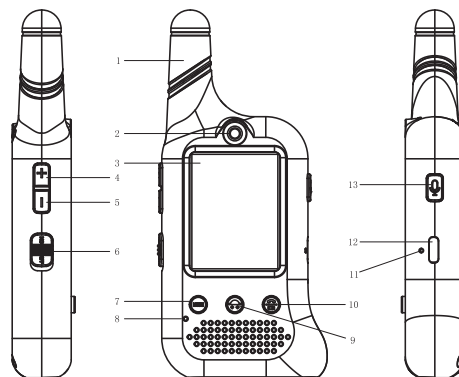

- When the product leaves the factory, the switch on the 6th power supply is in the "OFF" position.
- Pull the power switch to "ON", and the product will start automatically. As shown in image A, the display area shows the image from the device's own camera; the image from the other device will only appear in display area B when the other device is turned on.
- For first-time use of this product, please fully charge the device.
- Charging Indicator
 - Use the charging cable provided with this device to connect to the charger. The power indicator light will turn red, and it will automatically turn off when fully charged.
 - Charger specifications: 5V, 1A

Product Specifications:

Display screen	2.0 Inch IPS
Lens	SP0A39
Battery capacity	3.7V 650mAh
Language Settings	Standard English
USB port	USB-C
Operating Temperature	-20°C~60°C
Storage Temperature	-30°C~70°C
Language Settings	Multilingual
Power Supply	Power Supply 5V/1.0A
Product Size	
Call distance	Approximately 1640.42 ft

4. Function Description

- display the local camera. When the other party's intercom is turned on, both sides will automatically connect and display each other's images.
- Hold down key 13 to talk. This device uses a simplex transmission channel, so the other party can only speak after the current speaker releases the talk button.
- Image Display Mode Switch 1: This device has three screen display modes
 - Default picture-in-picture mode.
 - Display only the local image mode.
 - Display only the other party's image mode.
- Voice Change Function: Press and release the 7 key to switch voice modes. After turning off the power, the voice change mode will return to the original voice mode.
- Volume Adjustment:
 - Press the '4' key briefly to increase the volume
 - Press the '5' key briefly to decrease the volume
- Press the number 9 key to display various images on the screen. Press the number 10 key to switch between video call and voice intercom.
- Product Automatic Shutdown and Sleep Function
 - When the product is idle, the machine will automatically shut down after 5 minutes.
- Product Pairing and Connection Methods:
 - This product uses a 2.4G transmission and reception method; each package comes standard with 2 walkie-talkies.
- Precautions: This product is suitable for outdoor use. This device is not waterproof. For indoor use, the effective range depends on uninterrupted image transmission.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
