

Test Data Attestation and Statement of Compliance
RSS-247 Issue 4

Applicant:

Company name: Trellisware Technologies
Company Address: 10641 Scripps Summit Ct., Suite 100,
San Diego CA 92131 United States of America

ISED Certification Number: 28565-750W

Product description: 802.11a/b/g/n/ac Module with Bluetooth 5.0

Model(s) / HVINs: TW-750W

Type of Filing: Multiple Listing

Date: April 8, 2026

To Whom It May Concern,

This letter serves as an attestation regarding the test data and compliance status of the above-referenced transmitter with respect to the current requirements of Innovation, Science and Economic Development Canada.

The original certification of the module was granted under **RSS-247 Issue 2**. The present application is being submitted as a **multiple listing from IC: 3147A-LWB5PLUS**. No changes have been made to the RF circuitry, transmitter architecture, operating frequency range, modulation scheme, maximum output power, antenna type, or other parameters that could affect compliance with the applicable technical requirements.

A technical review of the device has been performed against the requirements of **RSS-247 Issue 4**, in conjunction with the applicable provisions of **RSS-Gen (latest issue)**. Based on this review, we confirm that the previously generated test data remains representative of the device and demonstrates continued compliance with the requirements of RSS-247 Issue 4.

Accordingly, we hereby attest that:

1. The existing RF test data from the original certification remains valid and applicable to the product as submitted in this application.
2. The device complies with the requirements of **RSS-247 Issue 4** and the applicable sections of **RSS-Gen (latest issue)**.

This statement is provided to support the certification update under the existing ISED certification number.

Should additional information be required, please contact the undersigned.

Sincerely,

Andrey Adelberg
