FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

WARNING LI-ION BATTERY INSIDE

This product is fitted with a Li-ion batery. Do not damage, open, or dismantle the battery and do not use it in damp and/or corrosive conditions. Use only with compatible chargers. Never dispose of batteries in a fire, and never expose them to high temperatures. Do not expose the product to temperatures exceeding 60°C (140°F)

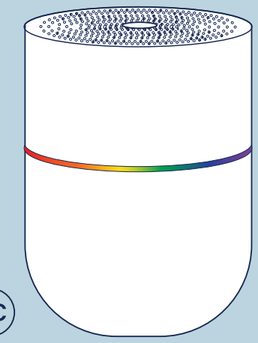

BEFORE YOU BEGIN

WARNINGS AND INFORMATION
READ CAREFULLY AND KEEP THIS MANUAL

* **Not intended for medical Use. Do NOT use as a substitute for medical attention.**
* Do not expose the unit to extreme temperatures (heat or cold), open flames, or humid conditions.
* **This product is NOT a toy, keep away from children and pets.**
* Only use this device according to the instructions in this manual. **Never use the device for anything other than its intended purpose.**
* ONLY use the supply power cable.
* **Do not open this product or attempt to repair the unit yourself should it not be working. Doing so risks fire, shock or injury.**
* If smoke or burning smell is detected, immediately unplug the unit.
* Always unplug the power cable before maintenance.
* Keep power cable clear of pathways, do not forcefully pull or remove from the unit.
* Always keep the water container on a stable flat surface. DO NOT place on a carpet, bed cushion or other non-flat, non- stable surface.
* Keep away from electronic equipment.
* Never move the product while powered on.
* **Do not submerge the humidifier top in water.**
* Do not operate unattended, especially around children or any person(s) with reduced physical, sensory, or mental capabilities.
* Only use supplied power cable. If using a USB adapter, it MUST be a **5 V USB adapter** (*not included*).
* When not in use, the humidifier should be stored in a dry, cool location, away from sources of water or heat.
* It is recommended that the humidifier be covered to protected it from exposure to dust if it will not be in use for a long period of time.
* **Do not add essential oil into the humidifier water. The oil will damage the product.**
* Do not allow the USB port or the connectors of the supply USB cable to be exposed to dust, or water, or come into contact with any conductive materials such as liquids, metallic powders, etc.
* Low power may cause poor Bluetooth connection or sound distortion.
* Do not overcharge battery.
* The speaker contains a built-in battery and should not be disposed of with regular household waste, please consult the local authorities on the correct way to dispose of this device.

WIRELESS LED SPEAKER & HUMIDIFIER

USER MANUAL

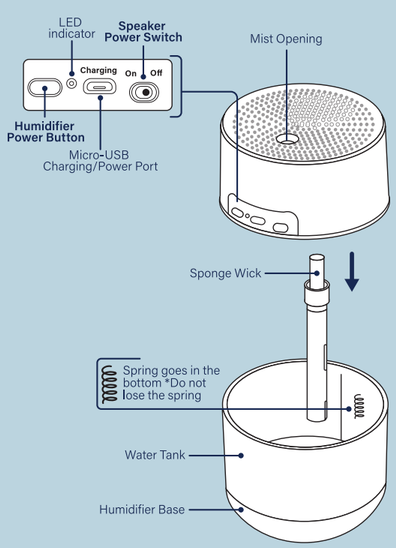

READ INSTRUCTIONS BEFORE USE OF SPEAKER

BACK

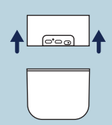

INTRODUCTION

GETTING STARTED

SETUP

1. Pull the humidifier top up to remove.

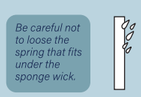

2. Pour water into the humidifier base's water tank. Use only clean tap water or mineral water.

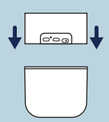

Do not use essential oils, as they can block humidification or damage the humidifier.

3. For best results,wet the sponge wick completely for 2 minutes before attempting to use.

Be careful not to loose the spring that fits under the sponge wick.

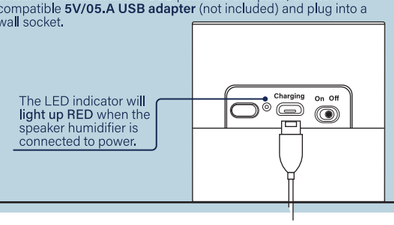

4. Place the humidifier top back on.

CONNECTING TO POWER/CHARGING THE SPEAKER

Warning: *Do not allow the charging/power cable, port or any power adapter* (not included) *to come into contact with water.*

Plug the small connector of the included micro-USB cable into the charging/power port on the top. Plug the large connector into a USB power source such as the USB port on a computer, or into a compatible **5V/05.A USB adapter** (not included) and plug into a wall socket.

USING THE HUMIDIFIER

Set up the humidifier & connect to power. The humidifier cannot run on battery power, and ***MUST be connected to power*** in order to use the humidifier function.

* Press the **Humidifier Power Button** to turn the humidifier ON in Continuous Mist mode.
* Press the **Humidifier Power Button** a 2nd time to switch to intermittent Mist mode
* Press the **Humidifier Power Button** a 3rd time to power the humidifier OFF

Note: The humidifier will automatically power OFF after 4 hours in Continuous Mode, or 6 hours in Intermittent Mode. Turn on again to continue use.

BLUETOOTH PAIRING

1. Power the speaker ON. A tone will be heard and the speaker will enter Bluetooth pairing mode.
2. Go to your device's Bluetooth Settings, and search for new Bluetooth devices. When it appears, select **"SASA SPEAKER"** from the found devices.
3. After a successful pairing, a tone will be heard, and you will be able to play music on the speaker.

USING THE SPEAKER

The speaker function ONLY can either be powered by the USB cable, or wirelessly & portably by the built-in battery. To run on battery power, charge the speaker humidifier fully before using.

To play music on the speaker, you must be paired to a Bluetooth-enabled device. If you are pairing for the first time, see the instructions in the Bluetooth Pairing section below.

Once you are paired via Bluetooth, all volume and playback adjustment will be controlled by your paired device.

POWERING THE SPEAKER ON/OFF

Move the Speaker Power switch to Power the speaker ON/OFF.

USING THE LIGHTS

* The LED lights will automatically power on when the Bluetooth speaker is powered ON, and will cycle through different colors.
* When playing music, the LED lights will react to the beat of your music. For best results, turn the volume up.
* The LED lights will power OFF when the speaker is powered off.

CLEANING & MAINTENANCE

When you are finished using the humidifier, unplug and store the cable. Remove the humidifier from water, and allow wick to dry.

REPLACING THE SPONGE WICK

Replace the sponge wick every 3 months, or when it changes color.

Remove the lid, pull out the old sponge wick, and insert a new one. Be careful not to lose the spring that fits under the sponge wick when replacing. Replace humidifier top.
