FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: — Reorient or relocate the receiving antenna. — Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

ENGLISH							
Product description The Vasco Powerbank EW35 is a 10,000 mAh power bank that allows you to charge mobile devices via cable or wirelessly. To charge the power bank itself, use either the USB-C port or the micro USB port. A USB-A to USB-C cable is included with the power bank. To activate wireless charging or view the battery level, press the power button. While charging or discharging, the small display will show the power bank's battery level. <table><tr><td>1. Power Button</td><td>4. USB-A Output</td></tr><tr><td>2. Wireless Output</td><td>5. Battery Level</td></tr><tr><td>3. Micro USB Input</td><td>6. USB-C Input/Output</td></tr></table> Parameters • Size: 101 x 66 x 23 mm • Weight: approx. 210 grams • Charging time: approx. 3h • Batteries and capacity: Li-pol, 5,000mAh*2 (37 Wh) • USB-C input: 5V / 3A, 9V / 2.22A, 12V / 1.67A • Micro-USB input: 5V / 2A, 9V / 2A • USB-C output: 5V / 2.4A, 9V / 2.22A, 12V / 1.67A • USB-A output: 5V / 3A, 9V / 2A, 12V / 1.5A • Wireless Charging: 5W / 7.5W / 10W • Total maximum output: 20 W • Operating temperature range: -10°C ~ 50°C	1. Power Button	4. USB-A Output	2. Wireless Output	5. Battery Level	3. Micro USB Input	6. USB-C Input/Output	Important notices • To ensure proper wireless charging, align your device's charging coil with the VA logo. Make sure there is no gap between the device and the power bank, such as one caused by a raised camera on the smartphone. • If the electronic display does not turn on after pressing the power button, connect the charger to the power bank. • This product includes protection circuits that may disable power output in case of a malfunction. To re-enable power output, follow the previous step. • Please refer to the attached Warranty & Conditions guide for more information on safely handling the device. You can access it by scanning the QR code below and then downloading the Warranty & Conditions document. We recommend reading it carefully. Improper use will damage the product or pose a risk to your health and safety.  manuals.vasco-electronics.com
