Models: MM-U0-A, MM-U0-A-XX, MM-U0-C, MM-U0-C-XX (X = A-Z, a-z, for market segmentation purposes only)

Declaration on Similarity

We herewith confirm that for the models listed above the RF transmitter module is electrically identical. The differences are in the model numbers.

1) Description of the differences:

All models listed above use the same pre-certified module, MM8108-MF15457 (FCC ID: 2A740-737B5B), without modification. The RF circuitry, RF performance and antenna arrangement are identical across all models; the dongle is the certified module on a USB carrier.

The -XX suffix denotes market segmentation only and has no effect on RF performance.

MM-U0-A and MM-U0-C differ only in the USB connector type.

Sincerely yours,

Applicant Signature
