5 IMPORTANT SAFETY INSTRUCTIONS

- ⚠ This unit is suitable for installation in a dry, indoor location only.
- ⚠ Recommended for domestic use ONLY.
- ⚠ Protect the device from humidity, moisture, and high temperatures (including direct sunlight).
- ⚠ Before starting the installation, shut off the power supply at the electrical panel by switching off the circuit breaker or removing the appropriate fuse. Cutting the power at the light switch is not sufficient to prevent electrical shock.
 - DO NOT touch the light bulb with your bare hand, as the oils from your skin can shorten bulb life. Please handle with a clean cloth.
 - DO NOT attempt to modify or repair the lamp yourself.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
