Connection and Pairing

Connection Method 1 (Receiver + Transmitter)

1. Connect the RX (Receiver) to the power cable and plug it into a 5V adapter or the USB port of a display, computer, or TV. The power supply must be $\geq 5V/1A$.
2. Insert the TX (Transmitter) into a laptop with a DP-enabled Type-C port.
3. No additional operation is required; the device will automatically pair within 10 seconds and start screen mirroring.
4. The TX (Transmitter) button can be used to switch or pause screen mirroring at any time.

-03-

Connection Method 2 (Receiver Only)

1. Connect the RX (Receiver) to the power cable and plug it into a 5V adapter or the USB port of a display or TV. The power supply must be $\geq 5V/1A$.
2. Supports wireless connection with various devices.
 - (1) Android Phone Mirroring: Go to Settings > More Connection > Wireless Display/Wireless Share/Multi-screen Interaction. Select the device and find "LLANO-T12" or click the corresponding icon in the menu bar to find "LLANO-T12."
 - (2) iPhone Mirroring: Swipe down the menu > Screen Mirroring, then select "LLANO-T12." For the first connection, iPhone users need to enter the 4-digit PIN displayed on the screen.
 - (3) PC Screen Mirroring: Windows 10 and above: Press Win + K keys, then select the device and find "LLANO-T12."

Mac: Click the screen mirroring icon in the status bar, select the device, and find "LLANO-T12."

-04-

Landscape and Portrait Mode Operation

Single-click the RX (Receiver) button to switch between landscape and portrait mode.

Display Stand Function Demo

-05-

Precautions

01 The receiver must be connected to the power cable and plugged into a 5V adapter or the USB port of a display/TV for the screen to display.

02 When the transmitter is connected to a device, the transmitter indicator will flash. At this point, the transmitter and receiver are pairing. Wait for 10 seconds, and the screen will automatically start mirroring.

03 No further action is needed; the receiver and transmitter will pair automatically. Once paired successfully, the transmitter's indicator light will stay on.

04 If screen mirroring fails, please contact Green Giant technical support.

Name and Content of Hazardous Substances or Elements in the Product According to China's «Restrictions on the Use of Hazardous Substances in Electrical and Electronic Products»

Component Name	Hazardous Substances and Content					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr(VI))	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Ethers (PBDE)
PCBA Board	○	○	○	○	○	○
Plastic Parts	○	○	○	○	○	○
Wires	○	○	○	○	○	○
Other Auxiliary Materials	○	○	○	○	○	○
This table is prepared according to the SJ/T11364 regulations. ○ : Indicates that the content of the hazardous substance in all homogeneous materials of this component is within the limit specified by the GB/T 26572 standard. X : Indicates that the content of the hazardous substance in at least one homogeneous material of this component exceeds the limit specified by the GB/T 26572 standard. Technical Description: All components marked with "X" in the table comply with the European Union RoHS Directive 2011/65/EU. Note: Depending on the product model, not all internal components may contain all of the parts listed above. It means that the product does not contain the six hazardous substances, or if they are present, their content is below the limit values. The letter "X" represents the first letters of "electronic" and "environment." The surrounding curved arrow indicates that the product is recyclable.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
