

SETUP PHOTOGRAPHS

This document contains 4 photographs

Photograph No.1
Setup for spurious emission field strength measurements in the anechoic chamber below 30 MHz for Digital water meter

Photograph No.2
Setup for spurious emission field strength measurements in the anechoic chamber in 30 – 1000 MHz range for Digital water meter

Photograph No.3
Setup for spurious emission field strength measurements in the anechoic chamber
in 1-18 GHz range for Digital water meter

Photograph No.4
Setup for spurious emission field strength measurements in the anechoic chamber
in 18-40 GHz range for Digital water meter
