A75 规格书

| 技术参数                       |           |
|----------------------------|-----------|
| 型号 (Model)                 | A75       |
| 频段范围 Frequency Range (Mhz) | 2400-2500 |
| 增益 Gain (dBi)              | -0.04     |
| 驻波比 VSWR                   | ≤3        |
| 输入阻抗 Impedance (Ω)         | 50        |
| 极化方式 Polarization          | 线极化       |
| 功率 Power (W)               | 5         |

## 驻波比

## 无源效率增益

| Frequency / MHz | Efficiency / % | Gain/ dBi |
|-----------------|----------------|-----------|
| 2400            | 22.82          | -1.75     |
| 2410            | 22.77          | -1.41     |
| 2420            | 23.95          | -1.21     |
| 2430            | 21.28          | -1.01     |
| 2440            | 20.88          | -0.7      |
| 2450            | 18.72          | -0.7      |
| 2460            | 17.75          | -0.59     |
| 2470            | 16.78          | -0.77     |
| 2480            | 18.5           | -0.04     |
| 2490            | 18.28          | -0.24     |
| 2500            | 17.16          | -0.28     |
