

Product Specification

A. Electrical Characteristics

Frequency 2400MHz ~2500MHz

VSWR <3.0

Efficiency >30%

Impedance 50 Ohm

Polarization Line

Gain 0 DBi

B. Material & Mechanical Characteristics

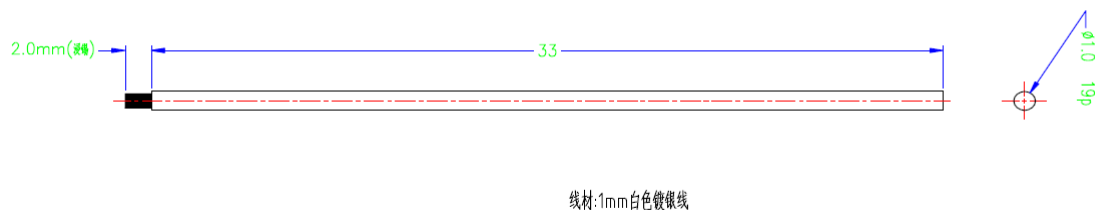

Material of Radiator Cu

Connector Type : welding

C. Environmental

Operation Temperature - 30 °C ~ + 80 °C

Storage Temperature - 30 °C ~ + 85 °C

We statement that All measurements were performed radiated and therefore additional antenna gain documentation is not required.
