ANJANK - Brand Story

At the end of the night, ANJANK keeps you under and warm to daily charging. With extended design and self-ambient light, we turn every bedside charge into a moment of beauty. A lamp, a space, a moment of peace – let everything begin with order and elegance, one charge at a time.

Buttons & Display

Buttons & Display

Getting Started

Plug the adapter into a standard household outlet, you will see 12:00 on the display and the dock is ready to be set.

NOTICE:

1. For the best charging experience, please use the included 40W power adapter (using other adapters may affect charging performance).
2. If the display is "blank" or turn on night light "dark" after plugging in, please click the "Display Dimmer" or "Night Light Dimmer" switch on the back of the dock to brighten the screen/night light.
3. Only supports Apple Devices.

Setting the time

1. Press the " " button once to enter HOUR setting/Press " " or " " to adjust the hour.
2. Press the " " button again to enter MINUTE setting/Press " " or " " to adjust the minutes.

3. Again, press the " " button, press " " or " " button to switch and enter 12H or 24H hour choice of display.
4. Press the " " button once more, or wait 5 seconds to save and exit.

NOTICE:

1. The display is set to 12Hour format by default.
2. 8-Color mode, the display will indicate appears on screen.

Setting the Alarm

1. Press the " " button once to enter HOUR setting/Press " " or " " to adjust the alarm hour.
2. Press the " " button again to enter MINUTE setting/Press " " or " " to adjust the minutes.

3. Press the " " button again to choose an alarm sound/Press " " or " " to preview and select from 8 alarm sounds.

Turn Alarm On/Off

Press and hold the " " button for 3 seconds to turn the alarm on or off. If the " " can display, it means the alarm is on. If the " " can show down display, it means the alarm is off.

Snooze

When the alarm rings, press the " " button to activate snooze.

Stop the Alarm

Press any button except " " to stop the alarm.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference.
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTICE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. This equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm to the nearest body.
