**YL-761 Product manual of 7-
inch intelligent screen all-in-one**

File version
V1.2

YL-761 7 inch smart screen

Product specification

1. Product overview

The YL-761 uses two wide-angle cameras installed inside and outside the vehicle to capture images of the surrounding area and transmit them to the integrated device in real time. With the help of this system, the driver can see the obstacles and pedestrians around the vehicle intuitively, and effectively reduce the occurrence of scraping, collision, collapse and other accidents. This product can record all driving pictures to avoid "scraping porcelain" disputes.

2. Product Composition List

List of Accessories

name	graphic	instructions	number
The host		7-inch HD display (1024*600) / 2-channel camera interface/touch control/Bluetooth /WIFI/FM transmitting /TF card recording /Type C interface power supply	1
The power cord		Type C power cord/6-36V/3A current/integrated cable/cigar lighter to take power	1
Pull back camera		AHD HD (1080P)/4PIN BMW head	1
Pull the headphone extension cord back		Pull back headphone cable / 6m /2.5mm headphone +4PIN BMW head/double shield/with reverse cable	1
Camera extension cord		Rear view / 10m/BMW head/one male and one female/dual shielding /4 cores	1

3. Product parameters

project	Function introduction	Performance indicators
system	Manipulation language	Simplified/Traditional/English
	interface	Graphical menu operation
	Mode of operation	touch
Video input	Video input	2 channels hd video input
	Video mode	Default boot video, no missing seconds
	The video	2K H.264 video, 2 channels of video

	format	saved separately
Video display	Real-time display	7-inch HIGH-DEFINITION IPS screen, 1024 x 600
	The native playback	Local play, anytime to view
	The screen saver	Can be set to 1 minute /5 minutes/off
Reverse display	Reverse display	Automatically switches to the rear view
	Astern line adjustment	Adjust the reversing line for various models
Smart + connected	WIFI	Supports ios CarPlay and Android Auto
	bluetooth	Support bluetooth music playback
	FM	FM transmission support, connected to the car radio
The video store	TF card	CLASS10 U1:64GB minimum and 256GB maximum
Audio part	The microphone	Support microphone recording, menu can be set to turn off
	Voice control	Support voice control, menu can be set to turn off
The power part	The power input	The voltage drop line supports 5V~36V wide voltage and has power protection circuits such as surge, overload, overvoltage, undervoltage and short circuit

The overall power consumption	Two-way video	Less than 10W (screen display, 2-channel camera recording)
other	Working temperature	-20~65°C
	The cooling way	Passive cooling
	The video time	Video recording duration can be set
	Channel trigger delay	Reversing signal delay can be set
	The picture image	Two screens support mirror display, menu can be set

4. TF card specifications

The quality of TF cards has a great impact on the stability of video recording. To record video safely, use SD cards from major brands such as Sandee, Kingston, Toshiba, and Samsung. Speed certification must be at least Class10.

5. Wiring instructions

The details are as follows:

NO.	interface	instructions
1	Type C interface	Mainboard power supply interface
2	cigarette lighter	The cigarette lighter takes power directly

6. Camera installation

Pull back camera:

Locate the drilling hole, find the appropriate installation position in the license plate attachment, mark it with a pen and then drill the appropriate size of the screw hole.

7. Interface specification

1 Time and Date: Displays the current time and date

2 Home button: Click to return to home page

3 Brightness button: Click to adjust screen brightness

4 Volume button: Click to adjust the volume

5 Turn off the screen button: click to turn off the screen, and click any position on the screen again to wake up the screen

6 Dashcam: Click to enter the video recording interface

Click "Resore Factory Settings" to enter the Settings:

Restore the factory settings, and you restore all the settings to the initial state

Firmware version

Click on "Firmware Version" to enter the menu:

This option is available in the current basic version for easy confirmation

return

Click the "Return" button in the upper right corner and the system returns to

the home page interface.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

IC warning

- English:

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and*
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.*

This equipment complies with Canada's radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

- French:

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et*
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."*

Cet équipement doit être mis en place dans un environnement favorable à l'environnement. Ce matériel devrait être installé et se dérouler avec une distance minimale de 20cm entre les deuxRadiateur et votre corps
