ATTN.: Reviewing Engineer

FCC: 2A7II-RFID3P
IC: 28688-RFID3P
HVINs/Models: 7000-0048, 7000-0049, 7000-0052

We hereby request Family Certification for the above mentioned HVINs/Models based on them being electrically, and physically identical apart from model name/number.

RFID electronic circuits and layout of all 3 models in the table below are identical. They also use the same antenna and antenna connector. The differences between the 3 models are presence (or absence) of optional outputs. The table below describes the differences.

Models	Paint control output	Heat mat/lamp output
7000-0048	No	Yes
7000-0049	No	No
7000-0052	Yes	No

They all use the same enclosure, except for the presence of a heat sink on the side of the units for model 7000-0048.

Signed:
