6. Function introduction of remote Control

7. Technical parameters

Working voltage: DC5V

Charging voltage: DC5V /500MA

Bluetooth distance: ≥10 m

Input sensitivity: 450±50mV

Signal to noise ratio: ≥85dB

Frequency response: 40HZ-18khz

Distortion: <1%

Power: MAX10W

8. Packing list

Starry sky projection lamp	1 PCS
Operation instruction	1 PCS
USB cable	1 PCS

Special remarks

1. As laser is harmful to the eyes, you should not look directly at laser light with your eyes.
2. Children under 8 years of age are prohibited from using the product alone without adult supervision (except for non-laser type).
3. Please turn off the power when no one is using it for a long time.
4. When the battery is low, the system will shut down automatically. Please charge it in time: if you do not use the unit for a long time, you can charge it at least once a month, which can protect the battery and extend the battery life.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that

interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
