Easy pairing connection

- ① The earphone is taken out of the package and placed in the charging compartment. The earphone is charged and activated, blue light on
- ② The earphone is taken out from the charging compartment, the LR earphone flashes Blue/Red, the R side flashes and the L side light is off, that means the pairing is successful.

Indicator light

- ③ Open the phone wireless
Search wireless name: F1
Click Connect

Note: If the left and right earphones are not connected within 5 minutes, the earphone will automatically shut down, if you need to use them, please restart them

- ④ After the headset is used, put it directly into the charging box and the headset turns off.
- ⑤ To use the headset again, simply remove the headset from the charging box. The headset will automatically complete the binaural pairing and connect the phone.

Product specifications

Product Name: F1

Wireless connection name: F1

Wireless version: 5.0

Power Input: DC 5V

Headset Battery capacity: 3.7V/40mAh

Call/play time: about 5 hours (Hours)

Charging time: about 60 minute (Min)

Charge box battery capacity: 3.7V/300mAh

Support agreement: HSP / HFP / A2DP / AVRCP

Sensitivity: 120 dB

Frequency response range: 20-20000Hz

Impedance: 32 Ω

FCC ID: 2A7NUBWGH0701

Product schematic diagram

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- ① this device may not cause harmful interference, and
- ② this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the device and receiver.
 - Connect the device into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
