

<p>EUT Housing and Board View 7</p>	 A photograph showing the EUT housing and board assembly. The housing is a silver-colored metal enclosure with a central cutout. Inside the cutout, a green printed circuit board (PCB) is visible, featuring a large black heat sink and various electronic components. A black cable is connected to the top of the board. A black ruler with white markings is placed horizontally below the assembly for scale.
<p>Solder Board-Component View 1</p>	 A photograph showing the solder board-component view of the PCB. The board is green and populated with numerous electronic components, including integrated circuits, capacitors, and resistors. A large black heat sink is visible on the left side. A black cable is connected to the bottom of the board. A black ruler with white markings is placed horizontally below the board for scale.

<div>Solder Board-Component View 2</div>	 A photograph of a small, rectangular green printed circuit board (PCB) component. The board is densely populated with various electronic components, including integrated circuits, resistors, and capacitors. It is positioned on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale from 0 to 100 mm.
<div>Solder Board-Component View 3</div>	 A photograph of a larger, rectangular green printed circuit board (PCB) component. The board features a variety of electronic components, including several large integrated circuits, numerous resistors, and capacitors. It is placed on a blue textured surface next to a black L-shaped ruler. The ruler's horizontal scale goes up to 200 mm, and the vertical scale goes up to 100 mm.
