

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The assembly consists of a black plastic housing and a green printed circuit board (PCB) with a circular component. A black USB cable is connected to the board. A black ruler with white markings is placed next to the assembly for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The background is a blue textured surface.
Solder Board-Component View 1	 A photograph showing the solder board-component view. The assembly consists of a green printed circuit board (PCB) with a circular component. A black USB cable is connected to the board. A black ruler with white markings is placed next to the assembly for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing a small green printed circuit board (PCB) with various electronic components, including a circular component and several surface-mount components. The PCB is connected to a black cable with a USB-A connector. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
Solder Board-Component View 3	 A photograph showing the same green PCB as in View 2, but now connected to a circular component with a black outer ring and a silver-colored inner ring. The assembly is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.

Solder Board-Component View 4	 A photograph showing a green printed circuit board (PCB) and a circular metal component, likely a wireless charging antenna, resting on a blue textured surface. A black L-shaped ruler with white markings in millimeters is placed next to the components for scale. The PCB has several small components and a circular cutout. The metal component has a circular hole in the center and some soldering marks.
Antenna View	Wireless Charging Antenna  A photograph showing the same green PCB and circular metal component from a different angle. A red box highlights the metal component, and a red line points from the text "Wireless Charging Antenna" to it. The black L-shaped ruler is also present for scale. The metal component shows concentric circular rings, characteristic of a spiral antenna.
