AI real-time translation

These earphones use AI to translate your conversations, calls and videos in real-time, helping you communicate in 100+ languages.

App & ChatGPT®

The NebulaBuds app translates online content, face-to-face conversations and real-time recordings. Plus, the built-in ChatGPT® can easily assist you.

Clear audio, clear calls

Block out ambient noise and immerse yourself in music, TV shows or videos with ANC technology. Also, experience crystal-clear calls with ENC for smooth communication.
