Re: Application for New FCCID 2A7TQRA0002

Dear Sir or Madam,

This letter is submitted in support of the application for a new FCC certification for ID:2A7TQRA0002, under Part 15, Subpart C of the Commission's rules §15.247.

RA0002 is a Bluetooth Low Energy transmitter in the form factor of a thin shipping label/tag for asset and parcel identification. The device transmits Bluetooth LE advertisements only. The Bluetooth radio is TX-only, implemented at chipset level (no radio module), and configured for LE 1M PHY only.

The model A-Label (RA0002) was tested in full to the requirement aforementioned rules and was found to be in compliance.

We respectfully request that the Commission grant certification for FCC ID 2A7TQRA0002 based on the documentation provided. Should additional information or clarification be required, we would be pleased to respond promptly.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian Krejcarek'.

Brian Krejcarek, CTO
