Instruction manual

3 in 1 Fast charge

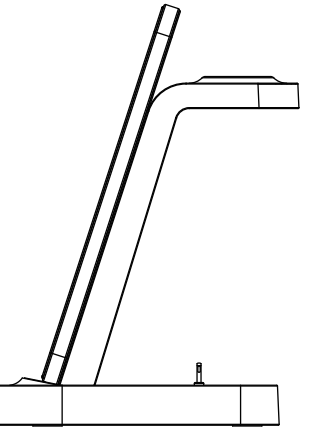

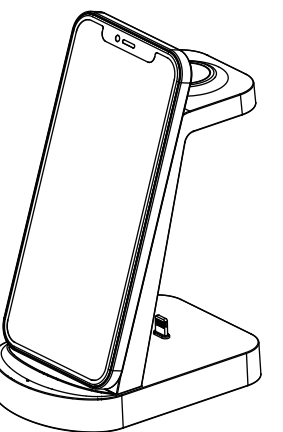

1. Introduction:

1. Wireless charging area of mobile phone
2. Charging of airpods/airpods pro.
3. Wireless charging area of iWatch.
4. Operating indicator light.
5. TYPE-C Female

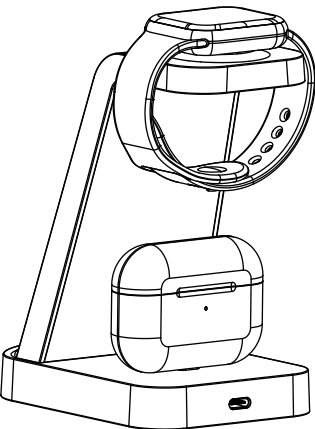

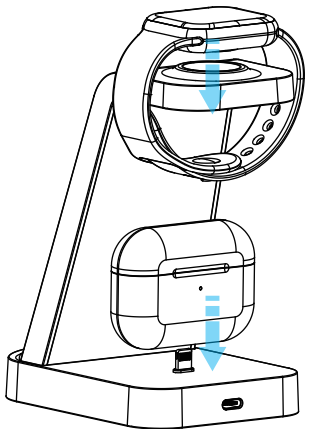

2. Operation instructions:

2.1 Charging the mobile phone: Support the maximum phone thickness. Put the mobile phone upright in the wireless charging area of mobile phone, and you can see the "Charging indicator" on the display of the mobile phone, showing that it is being charged properly. (Attention: The phone cannot be charged when placed horizontally)

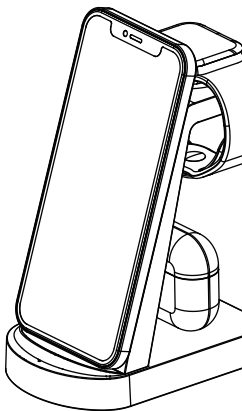

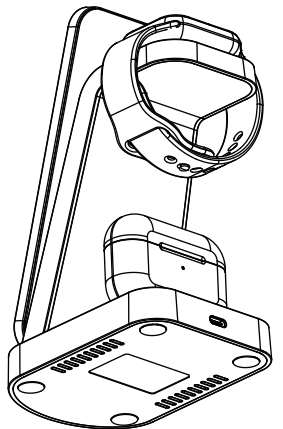

2.2 Charging the watch: Put the watch on the wireless charging area of watch, and align the magnets; the "Charging indicator" on the watch will light up, indicating that it is being charged properly.

2.3 Charging the Bluetooth headset: Insert the plug to the Bluetooth headset charging compartment (Attention: If a thick silicone protective cover is provided on the headset charging compartment, it may cause poor contact and failure to charge, please remove the silicone protective cover before charging.)

2.4 This product needs to be powered with an adapter with a power of 9V---2A and connected to the type-c port. When the bottom power indicator is on, it means that the power supply is connected.

2.5 Operating indicator: The blue working indicator is always on during the charging process of the mobile phone, which is off when it is not being charged or fully charged; it will flash in case of any charging fault.

3. Specifications:

Name	3 in 1 wireless charger	Model	EC618
Product size	107*76*131.2(mm)	Power Supply Port	Type C
Input	9V --- 2A	Maximum output power	18W

4. Matters needing attention

4.1 When charging the device, do not use a protective cover with a thickness of more than 5mm, and do not use a protective cover with a metal sheet.

4.2 Do not put metal foreign objects in the charging area.

4.3 When charging, please aim the device at the center of the charging area.

Customer satisfaction is our pursuit, if there are any quality problems please contact us first.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

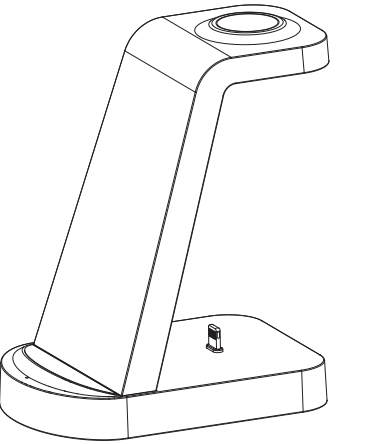

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Gebrauchsanweisung

3 in 1 Schnellladung

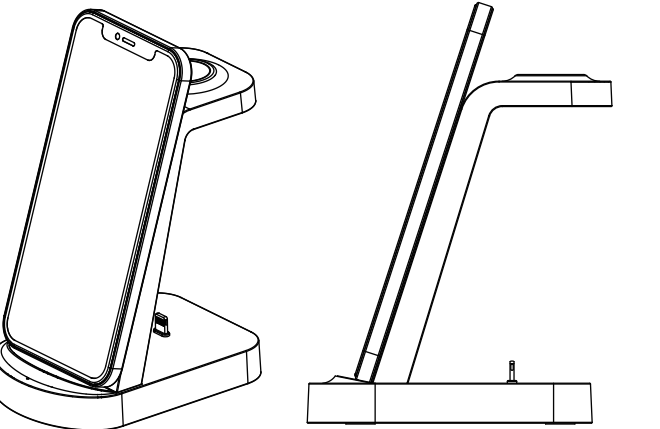

1. Einleitung:

- 1. Kabellose Ladestation für Mobiltelefone
- 2. Aufladen von airpods/airpods pro.
- 3. Kabelloser Ladebereich der iWatch.
- 4. Betriebskontrollleuchte.
- 5. Typ-C Buchse.

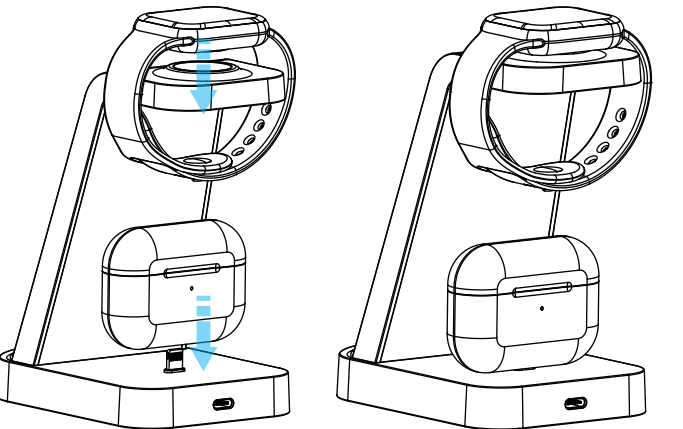

2. Bedienungshinweise:

2.1 Aufladen des Mobiltelefons: Unterstützt die maximale Dicke des Telefons. Legen Sie das Mobiltelefon aufrecht in die kabellose Ladestation des Mobiltelefons, und Sie können die "Ladeanzeige" auf dem Display des Mobiltelefons sehen, die anzeigt, dass es ordnungsgemäß aufgeladen wird. (Achtung: Das Telefon kann nicht aufgeladen werden, wenn es waagrecht liegt)

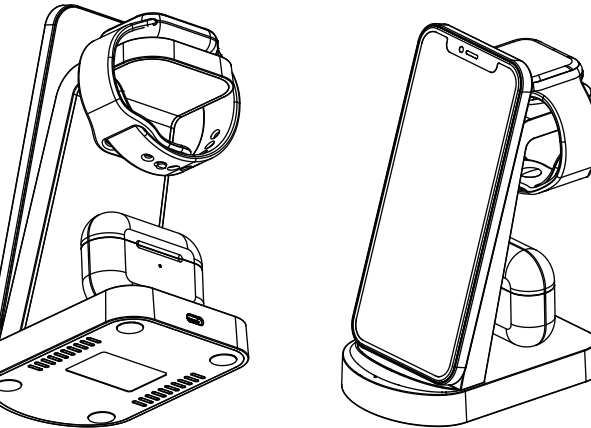

2.2 Aufladen der Uhr: Legen Sie die Uhr auf den kabellosen Ladebereich der Uhr und richten Sie die Magnete aus; die "Ladeanzeige" auf der Uhr leuchtet auf und zeigt an, dass sie ordnungsgemäß geladen wird.

2.3 Aufladen des Bluetooth-Kopfhörers: Stecken Sie den Stecker in das Ladefach des Bluetooth-Headsets (Achtung: Wenn das Ladefach des Headsets mit einer dicken Silikonschutzhülle versehen ist, kann dies zu schlechtem Kontakt und zum Scheitern des Ladevorgangs führen; bitte entfernen Sie die Silikonschutzhülle vor dem Laden).

2.4 Dieses Produkt muss über einen Adapter mit einer Leistung von 9V-2A mit Strom versorgt und an den Typ-C-Anschluss angeschlossen werden. Wenn die untere Netzanzeige leuchtet, bedeutet dies, dass das Netzteil angeschlossen ist.

2.5 Betriebsanzeige: Die blaue Betriebsanzeige ist während des Ladevorgangs des Mobiltelefons immer an. Sie ist aus, wenn das Handy nicht oder nicht vollständig aufgeladen ist. Sie blinkt, wenn ein Ladefehler auftritt.

3. Spezifikationen:

Name	3 in 1 kabelloses Ladegerät	Modell	G618
Produktgröße	107*76*131.2(mm)	Stromversorgung anschluss	Typ C
Eingang	9V 2A	Maximale Ausgangsleistung	18W

4. Zu beachtende Punkte

- 4.1 Verwenden Sie beim Laden des Geräts keine Schutzabdeckung mit einer Dicke von mehr als 5 mm und keine Schutzabdeckung mit einem Metallblech.
- 4.2 Stellen Sie keine metallischen Fremdkörper in den Ladebereich.
- 4.3 Richten Sie das Gerät beim Aufladen bitte auf die Mitte der Ladefläche.
