

H5124说明书

版本:1.0

料号:807-0003-00471

折叠尺寸:60×55 (mm)

展开尺寸:540×55 (mm)

材质:80G书页纸

工艺:单色印刷

折叠方式:风琴折

Included in the Box

Item	Quantity
Vibration Sensor	1
CR2032 Battery	1 (Pre-Installed)
Adhesive Tape	1
User Manual	1

Introduction

The Govee Vibration Sensor can detect object movements. It has a built-in high-precision accelerometer sensor that can detect vibrations. It can be fixed to most indoor surfaces with adhesive tape. Based on the Bluetooth communication with Govee's unique distributed gateway,

it can transfer the detected signals as a condition to trigger automation to execute commands from other Govee products to achieve multiple intelligent scenarios.

Part Names

- a. Function Button
- b. Indicator Light
- c. Bottom Cover
- d. Open Slot
- e. Battery
- f. Insulation Sheet

2

Controls

Button

Press and hold the function button for 3 seconds. When the indicator light flashes slowly, it means that the device has entered the Bluetooth Broadcast Mode. Please follow the in-app instructions to complete pairing.

Indicator Status

Indicator	Working Status	Light Status
	During the Bluetooth Broadcasting	Flashes Red

3

Functions

Vibration to Trigger Signals

The sensor can detect vibrations. You can set the triggering instructions in the app.

Getting Started

1. Open the packaging. Open the bottom cover from the open slot as shown in the picture. Pull out the insulation sheet and tighten the bottom cover up.

For App & Connectivity

1. Cannot connect to Govee Home App.

- Make sure your smartphone is powered on and is not connected with other Bluetooth devices.
- Enable the smartphone's Location Services.
- Try connecting with another smartphone.
- Make sure your app is updated to the latest version.
- Make sure you connect to your Wi-Fi router's 2.4GHz network and that the network is working correctly.
- Make sure the Wi-Fi password you entered is correct.
- Shorten the distance between the sensor, distributed gateway, and the smartphone.
- Make sure your sensor and the distributed gateway are located away from appliances that produce electromagnetic radiation (e.g. microwave ovens, refrigerators, etc.)

- If you are using a VPN, try turning it off and then connecting the sensor.
- Disable portal authentication for your Wi-Fi network. If portal authentication is enabled, this sensor will not be able to access your Wi-Fi network, and setup will fail. Portal authentication means that you need to sign in to your Wi-Fi network through a web page before you can use the Internet.

2. Cannot find the device on Bluetooth Device Nearby page of the app.

- The sensor may be connected with another smartphone. Disconnect it from the other smartphone first.

3. The sensor is offline.

- Make sure the sensor is plugged in and powered on, then refresh "My Devices" in Govee Home App by swiping down on the screen.

- Make sure your router is connected to the internet, and your smartphone's network connection is working.
- If the Wi-Fi password has been changed, the sensor will automatically go offline. Try connecting it to the network again.
- Delete the offline sensor from Govee Home App, then add and reconfigure the sensor again in the app.

Appendix

After-Sales Service

Warranty: 12-Month Limited Warranty

Support: Lifetime Technical Support

Specifications

Model Name	H5124
Power Supply	CR2032
Power Input	DC 3V 8mA
Working Temperature	-10°C to 50°C/ 14°F to 122°F
Bluetooth Communication Distance	55m/180ft (No obstacles)

FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
