

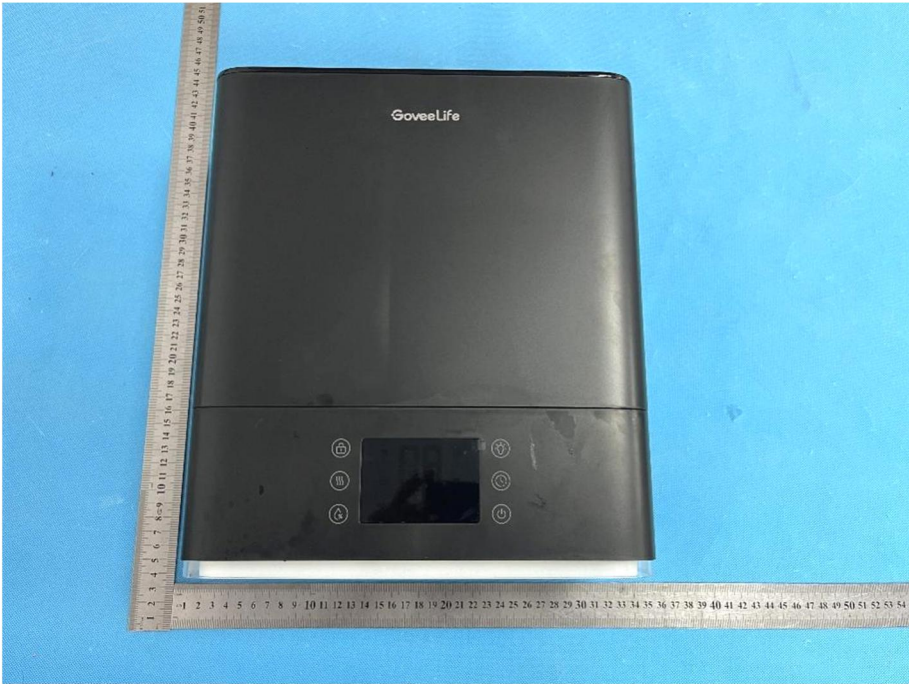

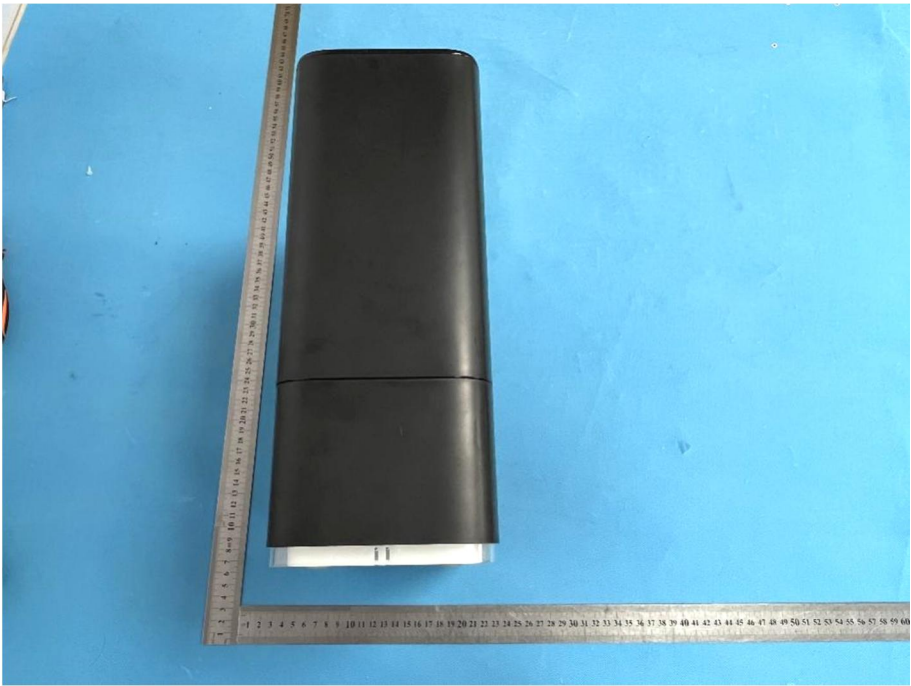

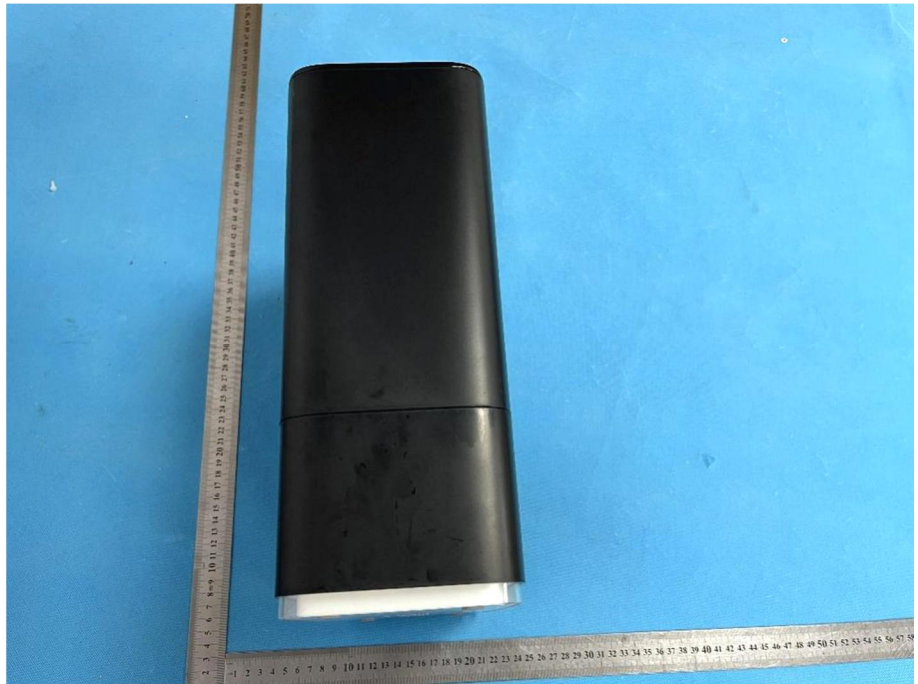

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A top-down photograph showing two rectangular electronic units, one black and one white, placed side-by-side on a blue surface. A long metal ruler is positioned horizontally below the units. The black unit on the left has a circular feature on its top surface. The white unit on the right has a circular feature with a small square in the center. Power adapters and cables are visible next to each unit.
EUT View 2	 A top-down photograph focusing on the black EUT unit. It is centered on a blue surface with a metal ruler placed horizontally below it. The unit's top surface features a large circular component and a small white label with text and a logo.

EUT View 3	 A top-down view of a black, rectangular electronic unit. On the left side, there is a large, circular, black lens or sensor. To the right of the lens is a small white rectangular label with a red warning symbol and some text. The device is placed on a blue surface. A wooden ruler is positioned horizontally below the device, showing measurements in centimeters.
EUT View 4	 A front view of the same black rectangular device. The top half is a solid black panel with the brand name 'GoveeLife' printed in white. The bottom half features a control panel with a small rectangular display screen in the center. On either side of the screen are four circular buttons, each with a different icon. The device is placed on a blue surface. A wooden ruler is positioned horizontally below the device, showing measurements in centimeters.
