

## PRODUCT OVERVIEW

### Tripod:

1. 9" LED Ring Light
2. Phone Cradle With 360° Rotation
3. 270° Adjustable Tilt
4. 72" Stainless Steel Telescopic Rod
5. Rechargeable Bluetooth Remote
6. Tripod Support With Suction Cup Footing

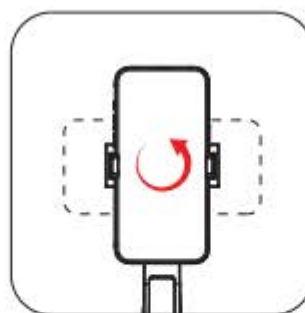

### Remote:

7. Power Indicator Light
- 7-1. Power On/Off
8. Shutter Button
9. Charging Port

### Ring Light:

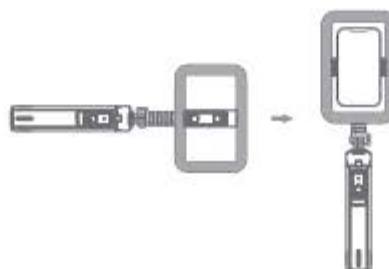

10. Charging Port
11. Power On/Off, Change Brightness

## SELFIE STICK USE

With a 360° rotation, the mounting phone cradle can be used either portrait or landscape or any combination.

## PORTRAIT MOUNTING

Mount your phone in the cradle by pulling the clip to the right.

## LANDSCAPE MOUNTING

The clip should be pulled upward, away from you, when mounting in landscape.

**NOTE:** The cradle fits phones up to 3.5" (vertically). Make sure your phone's side buttons are not blocked.

## SETUP OPTIONS

The selfie stick can be extended to the length you desire (up to 58") and the cradle can be tilted to your desired angle (up to 270°).

## TRIPOD USE

Opening the selfie stick handle will allow you to unfold the tripod's legs.

**NOTE:** The tripod should be positioned on a flat surface that is stable and balanced.

## BLUETOOTH PAIRING

To pair the Bluetooth remote to your phone:

1. When you toggle the power switch up, it should show ON, indicating it is on. As it enters Pairing Mode, the indicator light will begin to flash.
2. To connect, search for and select "Selfie" in your phone's Bluetooth menu.
3. A successful pairing will result in the LED indicator turning off.

## Bluetooth Pairing Troubleshooting Guide:

If you are unable to find the remote on your phone's Bluetooth menu:

1. Clear some paired devices and turn off the Bluetooth setting.
2. Restart your phone
3. Restart the Bluetooth remote's Pairing Mode by turning it off and back on.
4. Turn on the Bluetooth setting.
5. When "Selfie" is in your Bluetooth menu, click "Connect" and repeatedly click the camera button on the remote until paired.

## 9" LED RING LIGHT

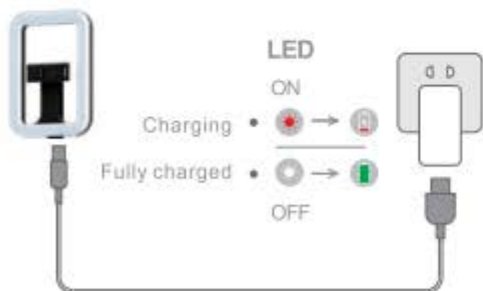

### Charging The Ring Light:

Use the included USB-C cable to charge the ring light.

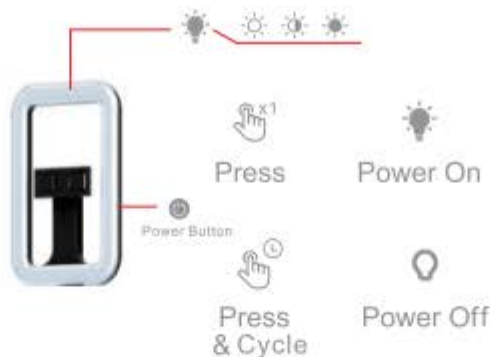

Charging Time: ~5 Hours

**Charging:** The Indicator Light will be solid red.

**Fully Charged:** The Indicator Light will turn off.

## ON/OFF:

### To Power ON:

Press the Power Button.

### To Power OFF:

Using the Power Button, cycle through the lighting mode until the light powers off.

## SWITCHING BETWEEN LIGHTING OPTIONS

Using the Power Button, cycle through the 3 lighting options (White/Natural/Warm).

**NOTE:** Each color has 3 dimmable brightness options. To change the brightness just cycle press Power Button.

## BLUETOOTH REMOTE

### Charging The Bluetooth Remote:

Please fully charge the wireless remote and ring light before first use.

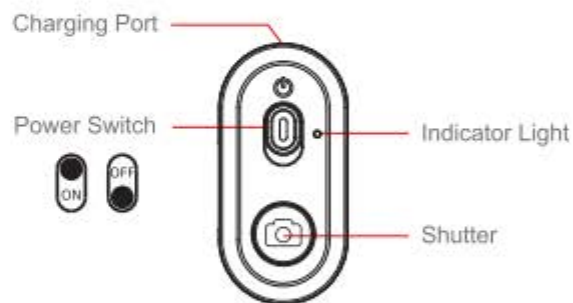

Use the included USB-C cable to charge the remote.

Charging Time: ~2 Hours

**Charging:** The Indicator Light will be solid red.

**Fully Charged:** The Indicator Light will turn off.

## BLUETOOTH REMOTE CONTROLS

**NOTE:** Be sure to toggle the power switch on.

To use the wireless shutter option, ensure the remote is paired to your phone.

1. Open up your phone's camera app.
2. To take a picture, press the center photo button on the remote.

**FCC Warning:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Caution:** Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
