Wireless Bluetooth Earbuds

User Manual | VWS-E44

Introduction

The True Wireless Bluetooth Earbuds feature cutting-edge technology to deliver premium sound quality and great noise-cancelling performance. Real-time audio processors and high-performance mics power the specially designed driver unit, for wide frequency reproduction, deep bass and clear vocals. They are designed to immerse you in a sound so good, it feels like you're in the studio with your favourite artists.

Specifications

Model: NBN

Bluetooth version: Bluetooth 5.3	
Material: ABS	
Earbuds' battery capacity: 30mAh/0.111Wh	
Earbuds' input power: 5V⎓30mA	
Charging case's battery capacity: 400mAh/1.48Wh	
Charging case's input power: 5V⎓300mA	
Charging case's interface: USB-C	

Operating instructions

1. Power on

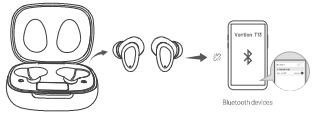

a. When the charging case opens, the earbuds power on.
b. When powered off, press and hold the MFB (Multi-Function Button) on either the left or right earbuds for 3 seconds. The indicator light will illuminate blue for 3 seconds, and the voice guidance will say, "Power on."

2. Pairing and connection

a. Earbuds are ready to pair right out of the charging case.

b. Open the Bluetooth menu on your device. In the list of discovered Bluetooth devices, tap or click your Vention T13. You will hear the voice guidance say, "Connected."
Note: If you hear "Disconnect" and the earphones are not reconnected within 5 minutes, they will automatically power off. The Noise-Canceling Mode won't exit due to disconnection.

3. Power off

• Auto power off
a. The earbuds will automatically power off after 5 minutes of not being connected.
b. When the earbuds are not paired with the phone due to the long distance, it will automatically power off if it is not connected for more than 3 minutes and 30 seconds.

• Manual power off
a. Earbuds automatically power off when placed back in the charging case with the lid closed.
b. When it is connected, press and hold either the left or right MFB (Multi-Function Button) for 5 seconds until you hear "power off."

4. Phone mode

Ring tone		Incoming call
Answer a call		Tap the multi-function button twice quickly
End a call		Press and hold the multi-function button for 2 seconds
Decline the call		Press and hold the multi-function button for 2 seconds

5. Music mode

Pause	Tap the multi-function button twice quickly
Play	Tap the multi-function button twice quickly
Skip backward	Press and hold the multi-function button on the left earbud for 2.5 seconds
Skip forward	Press and hold the multi-function button on the right earbud for 2.5 seconds
Increase the volume	Tap the multi-function button(right)
Decrease the volume	Tap the multi-function button(left)

6. Mode switching

Switch the Game Mode/Music Mode	Tap the multi-function button 4 times(left)
Switch the Ambient Sound Mode/Noise Cancelling Mode/Normal Mode	Tap the multi-function button 3 times(right)

7. Using the voice assist function

When the phone is on standby, tap the multi-function button 3 times(left) to activate or stop your voice assistant (deactivation only supported on Apple phones).

8. Status lights

Low battery warning: Red light flashes every 5 seconds and every 3 minutes, you will hear the voice guidance say, "battery low."
When charging: The indicator lights up in red. The indicator turns off after charging is complete.

9. Clear the Earbuds device list

In a single-ear unpaired state, tap the multi-function button four times. You'll hear "beep beep beep beep + power off," indicating that the Bluetooth devices list has been cleared and the earbuds will power off.

Declaration on toxic or hazardous substances and elements contained in electronic products

The True Wireless Bluetooth Earbuds feature cutting-edge technology to deliver premium sound quality and great noise-cancelling performance. Real-time audio processors and high-performance mics power the specially designed driver unit, for wide frequency reproduction, deep bass and clear vocals. They are designed to immerse you in a sound so good, it feels like you're in the studio with your favourite artists.

Parts name	Toxic or Hazardous Substances or Elements					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr+6)	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)
PCBAs	X	O	O	O	O	O
Ceramic Parts	X	O	O	O	O	O
IC Parts	X	O	O	O	O	O
Charging Cables	O	O	O	O	O	O
Casing	O	O	O	O	O	O

This table is prepared in accordance with the provisions of SJ/T 11364.
O: Indicates that this toxic or hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement of GB/T 26572.
X: Indicates that this toxic or hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement of GB/T 26572.

Important safety instructions

Please read all instructions and warnings before using this product. Inappropriate use will cause damage to the product or personal safety.
1. Do not expose products containing batteries to excessive heat (e.g., from storage in direct sunlight, fire, or the like); do not store this product in high temperature, strong light, and strong magnetic field environment; do not place it in other harsh environments such as fire source. If your earbuds ever go into the water, please dry it naturally before using.
2. Improper use of the product can easily cause product damage or may endanger personal and property safety.
3. If consumers violate the product instructions and use them improperly, the company will not bear any consequences or legal liability for personal and property damage.
4. Non-professionals are strictly forbidden to disassemble this product.
5. Use this product only with an agency-approved power supply that meets local regulatory requirements.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE 3: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
