1. If the mobile phone has OTG function, please manually turn on OTG

Step 1: Open the phone "Settings"

Step 2: Enter "OTG" to search

Step 3: Open "OTG Connection"

2. Some models of OPPO may need to set up manually as below: Settings>Sound & vibration >Other settings>Default recorder>Add on

How to use

First: Plug the Lightning or Type-C receiver into the Lightning or Type-C port of mobile phone, the red light on the receiver is on

Second: Single press the the power button of mic, it is turned on successfully when green light is on.

Last: Red light on the receiver keeps always on,and then open phone camera or other APPs , the microphone can be worked to pick up sound

Special Notes:
If the mobile phone is in low battery during live streaming, the external power supply directly charges the mobile phone through the charging port of the receiver .

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in porlable exposure condition without restriction.
