User Manual | VWS-K54

So you can preview the frame before taking the photo. This helps you control composition and facial expressions in advance, avoiding bad shots altogether. You can easily switch between landscape and portrait modes with any top-to-bottom swiping gesture. You can also take a series of photos for focused focus-of-people. Powered by advanced technology, it provides ultra-high-definition images with every detail sharp and clear. It also features long-range wireless transmission, freeing you from cables with a stable, lag-free signal. So you can capture great moments accurately even from a distance.

Pixel: T-LA
Color: White
Interface: USB-C, 3.5mm TRRS
Material: ABS

TELEID-44: Default factory channel: 44 (For countries using ITU regulations)			
USA	Spain	France	Germany
Sweden	Japan	Korea	India
Italy	Poland	Africa	

TELEID-160/TELEID-160-CN: Default factory channel: 160 (For countries using FCC regulations)			
USA	Southwest Asia	China	Germany, China

Note: 1. Different countries require different channel settings. Please refer to each country's manual. Press and hold Button 2 for 5 seconds to change the channel.
2. If the button 1 and 2 are not connected, you can refer to the Channel 65 (Channel 65 is a subchannel number). 3. An environment with heavy 4G/Wi-Fi interference may experience latency, stuttering or shorter reception time.

1. Turn on Screen Mirroring on your phone, search for and connect to "Photo-xxxxxx" to mirror the screen.
2. Turn on Bluetooth, search for and connect to "Photo-xxxxxx" to enable photo capture and zoom.

1. Turn on Screen Mirroring on your phone, search for and connect to "Photo-xxxxxx" to mirror the screen.
2. Turn on Bluetooth, search for and connect to "Photo-xxxxxx".
3. Go to phone Settings > Accessibility > Zoom and turn Zoom ON. After enabling Zoom, the screen will appear or enlarge. Double-tap the screen with three fingers to return to the screen to the original size.

Device comply with the FCC Part 15 Rules. Consideration should be given to the following two conditions: (1) The device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.

Any change or modification not originally approved by the party responsible for compliance could void the user's warranty to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television repair expert.

The device has been designed to meet general FCC emissions requirements. The device may be susceptible to some general off equipment interference. Without adequate protection, equipment and/or data may be lost without restriction.

TIAUW (主保护产品) x1 AtoC 充电线 x1 辅助贴膜罩 x1 说明书

Q&A:

Q: 手机买回来为什么无法连接电脑进行充电?

A: 请尝试将手机本身充电线连接至电脑, 若无法通过手机本身进行充电, 请通过 USB 数据线进行手机充电。 (具体连接步骤可参考产品详情页)

Q: 为什么需要重启手机才不卡顿?

A: 重启手机能重置 iOS 系统 (以上版本支持重启)。
