Installation Guide—Outdoor Camera Example

① Before installation, ensure camera is added to app and functioning properly.

1. Mount Bracket

Attach positioning sticker to installation location, drill holes at marked points, insert plastic expansion nuts.

EN-04

2. Install Camera

② Bracket installation: Align wall bracket screw holes with nut holes, tighten screws, then place camera into bracket. A 'click' sound indicates completion.

③ All-in-one installation: Align camera body bracket screw holes with nut holes, tighten screws.

3. Complete Installation

Connect the power supply to the tail line. If the package is equipped with an Ethernet port waterproof kit, please connect the Ethernet port to the waterproof kit to prevent water from entering the device.

4. FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

EN-05

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
