1. Some android phones have OTG switch, please manually turn it on

Step 1: Open the phone "Settings" Step 2: Search "OTG" Step 3: Turn on "OTG Connection"

2. Some models of OPPO may need to set up manually as below: Settings>Sound & vibration>Other settings>Default recorder>Add on

First: Plug the Lightning or Type-C receiver into phone, the green light on the receiver is on

Step 2: Press switch key of microphone, the indicator light turns green, and then power is turned on.

Last: Green light on the receiver keeps always on, and then open phone camera or other APPs, the microphone can be worked to pick up sound

Special Notes:
If the mobile phone is in low battery during live streaming,
the external power supply directly charges the mobile
phone through the charging port of the receiver

In order to avoid electric shock, high temperature, fire, radiation, explosion, mechanical hazards and improper use of the product may cause personal injury or property damage, please read carefully and comply with the following matters before using this product:

1. When using the product, please confirm that the connected equipment and the product power match and reasonable adjustment of the volume of the equipment do not exceed the product power and loud volume for a long time, so as not to cause abnormalities in the product

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
