LED board - Front	LED board - Rear
 A circular black printed circuit board (PCB) populated with numerous small, clear, dome-shaped LEDs arranged in a circular pattern. A stainless steel ruler is placed next to the board for scale, showing it is approximately 100mm in diameter. The board has a central circular cutout and some text printed on it, including "Husita".	 The reverse side of the circular LED board, showing various electronic components such as integrated circuits, resistors, and solder joints. A stainless steel ruler is placed next to it for scale, indicating a diameter of about 100mm.
Camera module - Front	Camera module - Rear
 A black camera module with a lens and a circular array of LEDs on top. It is mounted on a black plastic housing. A stainless steel ruler is placed next to it for scale, showing a width of approximately 150mm.	 The back of the camera module, showing the PCB with various components and a blue ribbon cable. A stainless steel ruler is placed next to it for scale, showing a width of approximately 150mm.

Internal case 3	Internal case 4
 A photograph showing the interior of a white plastic case. The lid is open, revealing a green rectangular panel on the inside of the lid. The base of the case features a green star-shaped component with multiple circular openings. The case is set against a dark green background.	 A photograph showing the interior of a white plastic case. The lid is open, revealing a green rectangular panel on the inside of the lid. The base of the case is empty, showing the internal structure and mounting points. The case is set against a dark green background.
