

Request for Class II Permissive Change

December 19, 2023

UL Verification Services Inc.
47173 Benicia Street, Fremont, CA 94538

FCC ID : 2A8JK-FIDES-LINK
Applicant : ACSL Ltd.

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: 2A8JK-FIDES-LINK granted on September 6, 2022.

We would like to change the description of product from Fides-Link to Falcon 3.0 GND/ Falcon 3.0 AIR.

Also, we have obtained Modular Approval in Mobile configuration for this module. This time, Falcon 3.0 GND, E-000110-02 is used in the portable host devices (L14 (Controller)), therefore SAR testing with the host device was performed, and the Class II permissive change application in Portable configuration is submitted.

※Power setting (Tune-up) is down from original approval.

※Frequency range (channel) is cut from original approval.

For details of this modification, please refer to the following documents.
There is no change before and after change except for these documents.

☒	RF Exposure (SAR report)
☐	External Photo
☐	Internal Photo
☒	User Manual
☐	Label drawing/ location
☐	Block Diagram
☒	Theory of Operation
☐	Schematic Diagram
☐	Parts List

This time, we confirmed that this product still meets the minimum requirements of the applicable rules of FCC.

Thank you for your attention to this matter.

Sincerely,

Yasuki Ikeuchi
ACSL Ltd.
