Customer service Troubleshooting: The answers to most questions can be found in the FAQs at https://mantasleep.com/help Still need help? Please email support@mantasleep.com. © 2024 Manta Sleep LLC. All rights reserved. All relevant patents and trademarks can be found at https://mantasleep.com/pages/terms-of-service. Unauthorized duplication is a violation of applicable law. Other US and international patents pending.  manta sleep Contact Want to share your feedback, suggest an idea or just say hi? Feel free to email us: support@mantasleep.com.	WARNINGS • Please avoid dropping objects or spilling liquids onto the unit. If any liquid is spilled on the unit, unplug and turn it upside down immediately. Allow it to dry thoroughly (approx. one week) before plugging it into a wall outlet again. (Note that following these instructions does not ensure that the unit will be operational.) • Do not reach for the unit if it has fallen into water. Unplug it immediately from the wall outlet and, if possible, drain the water before retrieving the unit. • Keep Manta Sleep White Noise Machine away from heat sources like radiators, heat registers, stoves or other appliances that produce heat. • Avoid placing Manta Sleep White Noise Machine in areas that are dusty, humid, moist, lack ventilation, exposed to direct sunlight or are subject to constant vibration. • Manta Sleep White Noise Machine may be subject to interference from external sources like transformers, electric motors or other electronic devices. To avoid distortion from such sources, do not place the unit too close to them. • Do not apply excessive force when using any switches or controls. • We recommend using Manta Sleep White Noise Machine only with the charging cable and adapter included in the box. • Make sure to route all power cords properly so they are not walked on or pinched by items placed on or against them. • Unplug the power adapter for the outlet when the unit is unused for long periods of time or when moving the unit. • Do not attempt to service the unit yourself beyond what is described in the instructions.	Warranty This product is guaranteed for one year from the date of the original purchase. In the unlikely event of any defect arising due to a manufacturing fault, the unit will be replaced free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available. The warranty is subject to the following conditions: The Manta Sleep 60-day money-back guarantee applies to this product. Manta Sleep offers a one-year warranty to replace defective parts. The Manta Sleep one-year warranty is a voluntary manufacturer's warranty. It provides rights separate to rights provided by consumer law, including but not limited to those relating to non-conforming goods. As such, the one-year warranty benefits are in addition to, and not instead of, rights provided by consumer law and it does not exclude, limit or suspend a buyer's rights arising from consumer law. Consumers have the right to choose whether to claim service under the one-year warranty or under their consumer law rights. To validate your right to the warranty, you must provide your order number and the serial number on your warranty card. Video proof of the issue will be required. If the problem is deemed to be due to a manufacturing defect, a return label will be issued for further investigation. Do not return your product without prior authorization from Manta Sleep.	Warranty The warranty is in addition to, and does not diminish, your statutory or legal rights. In case of any questions or to obtain warranty service, feel free to reach out to our customer support: support@mantasleep.com Compliance This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment to an outlet on a circuit different from the one to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help.	Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The Manta Sleep mission: Empower light sleepers to sleep better so they can do more We believe great sleep is the non-negotiable foundation you need to create your best life. And we think most sleep companies focus on the wrong things. On the surface, we make the world's best sleep accessories. But the purpose of our products goes deeper than that. As strange as it sounds, improving your sleep isn't our end goal. For us, it's all about what you do with the energy great sleep gives you. This Add-On Speaker levels up your Manta Sleep White Noise Machine to give you true surround sound — so you can get the deepest possible sleep.	Included in the box: The box contains: • 1 speaker • 1 user manual • 1 power cable • 1 power adaptor Product overview Primary Speaker and Add-On Speaker:  1 MAIN SPEAKER PAIRING AND RESET BUTTON 2 ADD-ON SPEAKER RESET BUTTON	To set up and pair the Add-On Speaker: 1 For optimal placement, position the Add-On Speaker in a different direction from the primary speaker. This allows you to mask disruptive sounds coming from various directions. 	Setup 2 Plug the included power cable into the power adaptor and plug the other end of the power cable into the port on the speaker.  3 Connect the speaker to a wall power outlet. A jingle will play to confirm that the speaker has power. 	Setup 4 TO PAIR YOUR TWO SPEAKERS, PRESS THE  BUTTON 1x <i>Note: To factory reset your speakers, hold the pairing buttons on both speakers for 10 sec, then hold the remote control  button for 10 sec.</i>  5 Once paired, you can use the remote control to manage both speakers together.
