

PRODUCT PARAMETERS

Model : M12
 FCC ID : 2A8K3-M12
 Connected Name : BT
 Wireless Version : V6.0
 Charging Type : USB - C
 Use Time : ≈8h

Rated input power : 5V/0.15A
 Battery Capacity : 150mAh
 Charging Time : 1.5 - 2h
 Rated voltage : DC 3.7V
 Effective Distance : 10m

PRODUCT ACCESSORIES :

MANUAL*1

CHARGING CABLE*1

INSTRUCTIONS

-  Press Once: Play/Pause
Long Press : Turn On/Off
-  Press Once: Previous Song
Long Press: Volume Down

-  Press Once: Switch Modes
-  Press Once: Follow Song
Long Press: Volume Up

SAFETY NOTICE

1. Please turn down the volume to avoid hearing damage.
2. Please charge the headset at least once every two months.
3. The product shelf life is one year.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

The charger must be between 2.5W and 5W as required by the radio device to achieve maximum charging speed.
