PAloquETH

USAGE:

1. Clean the massager using the Cleaning Instructions below as a guide
2. Lube up both the massager and your anus, and then gently insert
3. Lay on your side with your legs curled to your chest, and relax your sphincter
4. Gently and slowly slide the massager inside, conforming to the curve of your body. Contract your sphincter when the massager is half way in, and then push the handle. This will automatically slide to where your prostate's g-spot is located
5. Breath slowly, contract the sphincter, and push the handle when breathing in. Release the sphincter when breathing out
6. Massage the prostate for 10-30 minutes by repeating Step 5
7. Please ensure you clean the massager thoroughly after each use

Remote controller

Press to change frequency

PAloquETH

IMPORTANT INFORMATION:

- Please check each part of item to make sure they are intact before use
- Please use with water based lubricants for easy insertion, as well as a slippery sensation
- Do not use shower gel or massage oil instead of a water based lubricant as this will damage the massager
- Be gentle the first time you enjoy this product!
- This product is an intimate sex toy – please do not share it with others!
Please keep away from children and pets!

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- [1] Reorient or relocate the receiving antenna.
- [2] Increase the separation between the equipment and receiver.
- [3] Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- [4] Consult the dealer or an experienced radio/TV technician for help.

- ♦ The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
