

Antenna test report

A. Specification

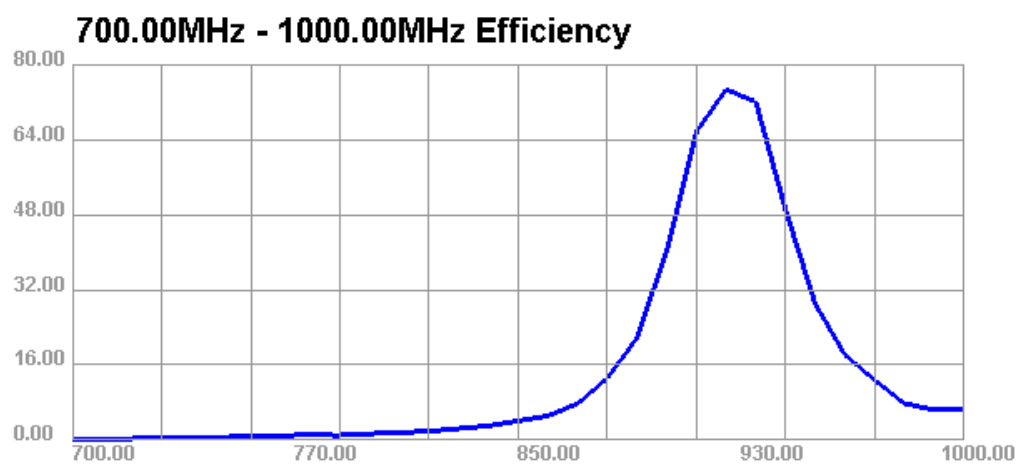

Electrical specifications	
Frequency range	902-930MHz
Gain	5dBi
Polarization mode	Circular polarization
Antenna shaft ratio	≤5dB
Impedance	50 Ω
Connector type	Various terminals and SMA connectors
Mechanical indicators	
Antenna ceramic size	60*60*4mm
Specification size	70*70mm
Antenna material	PCB ceramics
Operating temperature	-20-60℃

B. structure chart

C.VSWR Standing wave plot

D. Directional diagram
