Structures:

Features:

Bluetooth name: MMUSS
Version: 5.2
External charging: DC5V/1A
Charging port: Type-C
Battery type: polymer lithium
Charging time: 1~2 hours
Continuous play time: > 10 hours

Instructions:

1. **Turn on/off:** Press and hold the multi-function button for 1.5 seconds to turn it on, the blue light flashes 3 times quickly, and enter pairing mode accompanying by tone "power on pairing". Press the multi-function button for 5 seconds to turn off, the red light flashes 3 times quickly, and accompanied by tone "power off".
2. **Pairing:** Once the device is on and in pairing mode, turn on your phone's Bluetooth and find the name "MMUSS", select the MMUSS device to complete the

Bluetooth pairing. After the pairing is successful, the blue light will stay on for 1 second. Bluetooth automatically disconnects when the distance between devices is too far, and will reconnect within 3 minutes when the devices are within 8 meters of each other. The Bluetooth will automatically shut down after 8 minutes if there is no connection found.

3. **Charging:** When the battery charge is low, the red light will flashes 2 times(the time interval is 60 seconds). When the charge is completely depleted, the device will automatically shut down. When the device is being charged, the red light stays on until charging is completed. When the charge is completed, the blue light stays on. The device can be turned on after it is unplugged from the charging cable.
4. **Play music:** Briefly press the multi-function button to switch between play and pause. Briefly press "+" or "-" to adjust the volume. Hold down "+" or "-" to switch to the next or previous song.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The devices has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition without restriction
