Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'FLUIGENT Omi - Moher Board v1.0 02/22/2022', placed on a blue textured surface. The component is positioned between two rulers for scale. The vertical ruler on the left shows centimeters from 1 to 14, and the horizontal ruler at the bottom shows millimeters from 1 to 16. The PCB is populated with various electronic components, including resistors, capacitors, and integrated circuits.
Solder Board-Component View 4	 A photograph of a smaller green PCB component, labeled '02/22/2022 Omi - Contact detection board v1.0', placed on a blue textured surface. The component is positioned between two rulers for scale. The vertical ruler on the left shows centimeters from 1 to 9, and the horizontal ruler at the bottom shows millimeters from 1 to 9. The PCB is populated with a few electronic components, including a small integrated circuit and several resistors.

Solder Board-Component View 5	 A photograph of a small, rectangular green printed circuit board (PCB) component. The component is positioned horizontally between two metal rulers. The ruler on the left is marked in centimeters (1 to 8) and millimeters (0.5 mm). The ruler on the right is marked in millimeters (1 to 8). The component has several surface components, including two small black rectangular components labeled 'U1' and 'U2', and two small blue circular components. The background is a blue textured surface.
Solder Board-Component View 6	 A photograph of a U-shaped green printed circuit board (PCB) component. The component is positioned vertically between two metal rulers. The ruler on the left is marked in centimeters (1 to 11) and millimeters (0.5 mm). The ruler on the right is marked in millimeters (1 to 12). The component has several surface components, including two small black rectangular components labeled 'U1' and 'U2', and two small blue circular components. The background is a blue textured surface.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) component, identified as View 7. The component is L-shaped and features various electronic components, including resistors, capacitors, and integrated circuits. It is positioned next to a metal ruler for scale. The ruler shows centimeters (0 to 12) and millimeters (0.5 to 13.1). The background is a blue textured surface.
Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) component, identified as View 8. The component is rectangular and features a large integrated circuit (IC) labeled "LUGENT". It also includes various other components like resistors, capacitors, and connectors. A metal ruler is placed below the component for scale, showing centimeters (0 to 11) and millimeters (0.5 to 11). The background is a blue textured surface.
