

Size : 90*50 MM

Smart AC Controller with touch button

Make your air conditioner smart

USER MANUAL

Model: TS06Pro

Product Presentation:

Touch Button (double click to Power on/off A/C)

LED Indicator

Reset Button

Micro port

What's in the package:

AC Controller x 1pcs

Manual x 1pcs

Micro cable x 1pcs

Adhesive tape x 1pcs

Product Specification

Size: 60*60*20mm

Product Weight: 35g

Micro Input: DC 5V/1A

LED Indicator: Blue

Infrared Frequency: 38KHz

Infrared Range: ≤12 Meters

Bluetooth: 4.2 BLE

Wi-Fi Protocol: 2.4GHz

Wi-Fi Standard: IEEE 802.11 b/g/n

Temperature Measure Range: 0℃ ~ 60℃

Temperature Accuracy: ±1℃

Humidity Measure Range: 0% RH~99% RH

Humidity Accuracy: ±5% RH

Checklist before using the device:

a. Your smartphone has connected to a 2.4GHz Wi-Fi network.

b. You have input the correct Wi-Fi password.

c. Your smartphone must be Android 4.4 + or iOS 8.0 +.

d. If the numbers of devices connected to Wi-Fi router reach the limit, you can try to disable a device to vacate the channel or try with another Wi-Fi router.

How to set up:

1. Use your smartphone to scan QR code, or search "Smart Life" app in Google Play Store or APP Store to download and install.

Smart Life

Get it on Google Play

QR Code

Available on the App Store

2. Create account with your mobile number and authentication code.

3. Connect your mobile to your Wi-Fi router , supply power to the thermostat with micro charging cable, click "+" in the upper right corner of homepage or click "Add Device" .

4. 1) Bluetooth Mode:

The app will advise you to turn on the bluetooth in your mobile, then the app will pop up a window, click " Add " , it will discover and connect automatically.

2) Wi-Fi Mode:

Select " Thermostat (BLE + Wi-Fi) " from " Small Home Appliance" , make sure the LED indicator is blinking slowly, if not hold the reset button for about 5s till indicator is blinking slowly, enter Wi-Fi name and password. Connect your mobile to device's hotspot: "SmartLife-XXXX " , then click to return to App interface, it will connect.

5. Start learning the A/C code, please slide " Enable " bar towards the right, select the brand of your A/C, choose "Manual Mode", please match at least 3 buttons to check whether the A/C reacts properly, if yes, you can control the A/C on the app now, and can also control A/C by double click the touch button.

6. If you can not find your A/C brand, you can learn the buttons of remote control of other brands , after button learned, click it to confirm the A/C is under control. If yes, then you can control your A/C.

3. Temperature Unit Switch

You can switch temperature unit between Celsius and Fahrenheit, the temperature value will change after switch.

Click "Timing" , select the specific time and week to turn on/off the A/C.

1. Working Mode and Speed

You can adjust the working mode, wind speed, temperature in the app.

FAQ

1. When the temperature and humidity is more accurate ?

About 30 minutes after configuration completed, the temperature and humidity is closer to actual ambient environment, so the readings are more accurate.

2. How can i use the touch button to power on/off the A/C ?

Please double click the touch button to power on/off the A/C .
