Music Playback Time:	5 hours
Earbuds Battery Capacity:	40mAh
Charging Time Of Earbuds:	1.5 hours
Battery Capacity of Charging Case: 350mAh	
Single Earbud Weight:	3.7g

Warning!

1. Do not dismantle or refit the product to avoid malfunction or fire hazards.
2. Keep away from corrosive liquids.
3. Keep away from extreme ambient temperatures below-10°C or above 60°C.
4. Keep away from children and pets.
5. Do not touch the earbuds with sharp objects.
6. Do not use the product in thunderstorm weather.
7. If it has not been used for more than a month, please charge and maintain it in time to ensure that it is safe.
8. Since the Bluetooth signal cannot be transmitted underwater, swimming, and diving will cause the signal disconnected or intermittent.

SIXTHGU

V700 TRUE WIRELESS STEREO

How To Pair

Auto Pairing

1

Pick up two headsets from charging case,and they will power on and pair to each other automatically within 10 seconds.

2

Selecting the [V700] from device list in your Bluetooth manual to connect the earbuds

MFB Touch Pannel

Reset

If you accidentally get only one earbud work,or fails to pair each other, please reset it:

- 1.Delete all [V700] Bluetooth records on the phone,then turn off the Bluetooth.
- 2.Put two earbuds back to charging case, then holding the charging case round button for 5 seconds untill white lights on to reset will be done
- 3.Turn on the Bluetooth to reconnect [V700]

NOTE:
In case there is [Connection Unsuccessful] in your devices,please delete all historical records of [V700] and try the paringprocess again.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
