Warranty & Return Policy

Ellie provides a 12-month warranty from the delivery date against defects in material or workmanship under normal use. Defective products will be repaired/replaced free of charge if the issue arises from manufacturing flaws.

Exclusions

- Damage from misuse, improper installation, unauthorized repairs/modifications, third-party components, or force majeure events.
- Consumables (e.g., batteries) unless defective.
- Products without valid proof of purchase, serial numbers, or purchased from unauthorized sellers.
- Non-Ellie branded accessories, samples, or "AS IS" items.
- Consequential damages (e.g., data loss).
- Transferred ownership.

Claim Process

- Contact Ellie Support (support@alliehello.com) or authorized centers for troubleshooting.
- If unresolved, return the product to the provided address.
- Ellie inspects the product; non-covered issues require paid repair.

Returns & Refunds

- Eligible returns within 30 days of receipt
- Product must be unused, in original packaging with all accessories, and include proof of purchase/serial number.
- Customer covers return shipping; no restocking fees.
- Refunds processed to original payment method after inspection (shipping fees non-refundable).

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
