

MI Power 5000 mAh MagClick™
15W Wireless Power Bank
Instruction Manual
Item 7122-21
Model AST-WR250

Features:

- 1.ON/OFF Button
- 2.Type-C Input & output port
3. LED Indicators(5 indicators)
- 4.Wireless charging surface

What's included:

- 1 x 5000 mAh Wireless Power Bank
- 1 x USB-A to Type-C Charging Cable
- 1 x Instruction Manual(Electronic manual)

Specification:

- Capacity: 5000mAh/3.85V/19.25Wh
- Material: ABS
- Product size: 105.5*70*10.2mm
- Type-C Input & Output: DC 5V/3A,9V/2.22A, 12V/1.67A (20W max.)
- Wireless Output: 15W (max.)
- Input Power: Certified USB AC Adapter

LED Indicators

- Press the Power bank ON/OFF Button(1) once to view the remaining power capacity.
- Double press the button to turn OFF the Power bank.
- WHITE indicators show capacity, each white light represents 25% of total capacity.
- BLUE indicator shows wireless charging function.LED will glow BLUE when in standby mode, and will flash BLUE when do wireless charging.
- GREEN indicator shows fast charging function. LED will glow GREEN when do fast charging.

Instructions:

- 1.Charging the Power bank:
 - Charge the power bank fully before usage.

3. Charging phone with the Wireless Charging:
 - Press the Power bank ON/OFF button(1) to turn on the wireless charging function,the BLUE indicator will be on.
 - LED indicator will glow BLUE when in standby mode.
 - Place the phone on the wireless charging surface(4).
 - The device will automatically begin to charge, LED will flash BLUE when device is charging.
 - When the fast charging wireless charging function is started, the BLUE and GREEN lights will be on alternately.

Fast charging will not function when power bank is charging more than 1 device.

Overcharge protection, Overdischarge protection, Overvoltage protection, Overcurrent protection, Short circuit protection are available.

Note: In order to charge devices, use only the accessory cable, or the cable included with your device by the manufacturer.

SAFETY PRECAUTIONS:

WARNING-When using this product, basic precautions should always be followed, including the following:

1. Read all the instructions before using the product.
 2. Charge the power bank fully before initial use. The unit's full performance is achieved only after 2 or 3 completed charge and discharge cycles.
 3. To reduce the risk of injury, close supervision is necessary when the product is used near children.
 4. Do not expose the device to moisture.
 5. Do not use the device in excess of its output rating.
 6. Do not use the device if damaged or modified.
 7. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
 8. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
 9. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212 °F may cause explosion.
 10. Have servicing performed by a qualified repair person using only identical replacement parts.
 11. This will ensure that the safety of the product is maintained.
- Do not overcharge Phone. Unit may get hot With excessive use. Remove Phone when it is fully charged.
- Never charge for more than 7 hours at a time. Attachments on the back of your phone can impede the effectiveness of the wireless charger, And lead to overheating. Please remove attachments from the phone before charging on this device.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- ※Warning:
Changes or modifications not expressly Approved by the party responsible for compliance could void the user's authority To operate the equipment.
- NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/ TV technician for help.

IC Statement

This device contains licence-exempt transmitter (s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) L'appareil ne doit pas produire de brouillage;
(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radio Frequency Exposure Statement for IC This equipment complies with IC exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance without restriction between the radiator & body. Cet équipement est conforme aux limites d'exposition IC définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de without restriction entre le radiateur et la carrosserie.

CAN ICES-3 (B) / NMB-3 (B)
This Class B digital apparatus complies with Canadian ICES-003.
(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).

CAN ICES-3 (B) / NMB-3(B)
This Class B digital apparatus complies with Canadian ICES-003.
(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).
