

**MagClick™ 5,000 mAh Slim
Aluminum Power Bank**
Instruction Manual
Item 7122-41BK
Model AST-WR323

Functions:

- 1.Power Button
- 2.Type-C Input/Output Port
- 3.LED indicators
- 4.Magnetic Wireless Charging Surface

WHAT IS INCLUDED

- 1 x 5000mAh Magclick Wireless Power Bank
- 1 x 30cm TPE Type-C to Type-C charging cable
- 1 x Electronic manual(Scan for QR code)

Tech Specification:

- 1.Capacity: 5000mAh / 3.85V / 19.25Wh
- 2.Type-C Input: DC 5V/3A, 9V/2A, 12V/1.5A (18W Max.)
- 3.Type-C Output: DC 5V/3A, 9V/2.22A, 12V/1.67A (20W Max.)
- 4.Wireless Output for Phone: 15W Max.
- 5.Input Power: Certified AC adapter / Computer
- 6.If using more than one device, the total output is 15W max.

Instructions:

1.Charging Powerbank:

- Be sure the power bank is fully charged before usage.
- Insert the included Type-C tip of a cable to Type-C input port (2), the other tip of the cable into a certified AC adapter, then AC adapter into power source. Charging will begin automatically. The white capacity indicators will blink while charging and stop when fully charged.
- Once the power bank is fully charged, remove the device from the power source.

2.Charging Your Mobile Device:

- Press the ON/OFF button (1) to turn ON the power bank.
- Once power bank is ON, using the appropriate cable to connect your device directly.
- Phone will begin to charge automatically, the white indicator lights will be on while device is charging. The white indicators will be off when the power bank is run out of power.
- The power bank will be automatically OFF after 32S if without any operation or double press the button to turn off.
- Disconnect the charging cable from your mobile device when it is fully charged.

3.Wireless Charging Mobile phones and other electronic devices:

- Press power button once to turn on the power bank.
- Put the wireless charging devices on the charging area, the BLUE indicator will be on.
- Once fully charged please remove the device.
- Double press the button to turn off the power bank.

4.Wireless Charging with Magnetic Surface:

- If your device supports Magnetic, the magnets in your iPhone will connect to the magnetic surface(4) of the pad for a more secure charging.
- This item is also compatible with other items, the magnetic function just won't work.

****Note: When wireless charging, if the BLUE indicator is in fast flashing the device is either NOT a wireless charging device or there is an object between the device and charging surface interfering with the charging process.*

SAFETY PRECAUTIONS:

WARNING-When using this product, basic precautions should always be followed, including the following:

1. Read all the instructions before using the product.
2. Charge the power bank fully before initial use. The unit's full performance is achieved only after 2 or 3 completed charge and discharge cycles.
3. To reduce the risk of injury, close supervision is necessary when the product is used near children.
4. Do not expose the device to moisture.
5. Do not use the device in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury.
6. Do not use the device if damaged or modified.
7. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
8. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.

9. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212 °F may cause explosion.
10. Have servicing performed by a qualified repair person using only identical replacement parts.
11. This will ensure that the safety of the product is maintained. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when it is fully charged. Never charge for more than 7 hours at a time. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating. Please remove attachments from the phone before charging on this device.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

※Warning:

Changes or modifications not expressly Approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF warning statement:

the device has been evaluated to meet general RF exposure requirement, The device can be used in portable exposure condition without restriction.

IC Statement

This device contains licence-exempt transmitter (s)/receiver (s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS (s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device. L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. Radio Frequency Exposure Statement for IC This equipment complies with IC exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 10cm between the radiator & body. Cet équipement est conforme aux limites d'exposition IC définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 10cm entre le radiateur et la carrosserie.

CAN ICES-3 (B) / NMB-3 (B)

This Class B digital apparatus complies with Canadian ICES-003.

(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).

CAN ICES-3 (B) / NMB-3 (B)

This Class B digital apparatus complies with Canadian ICES-003.

(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).
