
Bluetooth antenna of PCB on-board specification

V1.0

1、Index

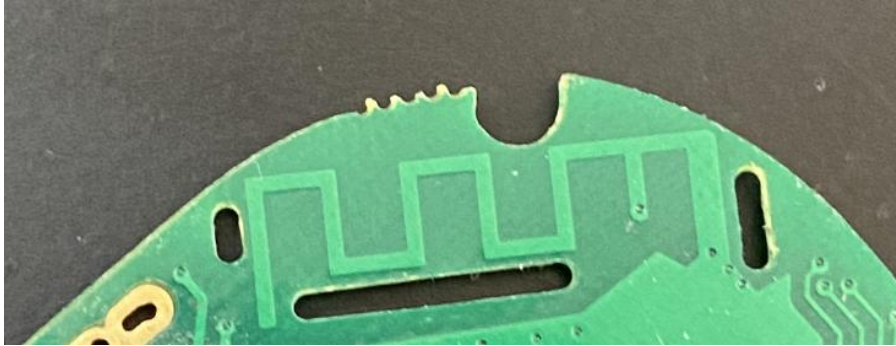

Item	Content	Page	Remark
1	Index	1	
2	Specification	2	
3	Return Loss	3	
4	Radiation Pattern	4	

Document Type: PCB Antenna
Document Version: V1.0
Release Date: Jan 20, 2021

2、Specification

Product Number: PCB Antenna

Sample Photo:

A. Electrical Characteristics

Frequency	2400 ~ 2500 MHz
S.W.R.	<1.5
Gain	1.76dBi
Efficiency	>56%
Polarization	Linear
Impedance	50 Ohm

B. Material & Mechanical Characteristics

Material of Radiator	plated copper
----------------------	---------------

C. Environmental

Operation Temperature	- 40℃ ~ + 85℃
Storage Temperature	- 40℃ ~ + 105℃

3、Return Loss

4、Radiation Pattern

Radiation Pattern and Gain were dependent on measurement board design. The specification of coil antenna was measured based on the PCB size and installation position as shown in the below figure Test Board.
