2

• How to use

Method 1: Touch Control

- ⏻ :Press to turn on/off the light.
- ☀️ :Press to increase the brightness.
- 🌙 :Press to decrease the brightness.
- 🔄 :Press to adjust the color temperature.

3

Method 2: Remote Controller

The remote controller has been matched with the floor lamp before leaving the factory. It's out-of-the-box.

Note: The remote controller can be attached to the pole of the floor lamp.

Method 3: Wireless Wall Switch

Press to turn on/off the floor lamp.

• Qusetion & Answers

Q1: What can you do if the remote controller doesn't work?

Step 1: Please keep the lamp on, disconnect the power and then connect again. Short press"⏻" and "☀️" simultaneously to match, which must be finished in 10s after the lamp is plugged in again.

Step 2: If the floor lamp flashes three times, the match is successful. Otherwise, please repeat the whole steps above until the match succeeds.

Step 3: Press any button on the remote controller for any lighting effect.

Q2: How to install the wireless wall switch?

Please stick the wall switch on the wall through double-side tape. Through walls to use the wall switch is not recommended.

Q3: What is the applicable range of the wall switch?

The longest remote control distance is 42.8ft under unobstructed conditions.

4

• Cautions

1. This movable floor lamp is not suitable to place on a tilted surface.
2. If the floor lamp needs any inspection and repair, please entrust qualified professionals.
3. The floor lamp is only for indoor use. Please keep it away from wet or damp locations.
4. Please don't touch the floor lamp with your wet hands when it is on.

Warranty

We provide 12-month warranty for the light and 60-day money back guarantee for quality problems.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. RF Exposure Information The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition, compliance with exposure requirements.
