

FCC ID: 2A98W-RACE
IC: 30024-RACE

IC: 30024-RACE

The image shows a small, rectangular, blue electronic device, likely a microcontroller or sensor module, resting on a blue textured surface. The device has a green printed circuit board (PCB) with various components, including a central microcontroller, resistors, capacitors, and a small white label. A red wire is connected to the device. A ruler is visible in the background, showing measurements in centimeters and millimeters.

The white label on the device contains the following text:

```

- CEL 351735 3.7V
150mAh 0.555Wh
+ 20220516
  
```

The green PCB also has some text printed on it, including "STM-5" and "MA 94V-0".

A photograph of a custom PCB assembly. The PCB is green and populated with various components including a microcontroller, memory chips, and passive components. It is connected to a white battery with yellow tape. The assembly is placed on a blue textured surface next to a ruler for scale. The ruler shows measurements in centimeters, with markings for 64, 65, 66, 67, 68, 69, 70, 71, 21, 22, 23, 24, 25, 26, 27, and 28. The PCB has the text "QUINACE 2004" and "www.quin.design.nl" printed on it.
