Product name

Device

- 1 Buckle
- 2 C-type Charging port
- 3 On/off button
- 4 LED light
- 5 Band slot
- 6 Diaphragm

Customized band

1. Charging

Connect the charging cable to the C-type charging port of the product, and connect the USB port of the cable to the charging adapter.

When charging starts, the LED light turns on. When charging is complete, the LED light turns off. (Approximately 30 minutes to full charge)

Disconnect the cable when charging is completed.

2. First Dolittle Connection

When the LED light blinks, a Bluetooth connection is available. (If the LED light does not blink, press the power button)

Download and install Dolittle App from Google Play Store or Apple App Store.

After running the Dolittle App, register your pet.

Select 'Searching Dolittle' and connect the device.

3. Connect and fasten the band

① Insert the band loop into the device slot.

② The attached band wraps around the chest of the pet.

③ Thread the end of the band into the buckle.
④ Adjust the length of the band and fasten the buckle.

⑤ Cut the remaining band so that the band does not exceed 5cm in length.
(※ If the length of the band is too long, the product may be damaged by pets.)

※ Position the device correctly on the chest of the pet.

4. On/Off

On: If you press the power button for more than 3 seconds, the device turns on while the LED light blinks.

Off: If the power button is pressed for more than 3 seconds while device is on, the device turns off.

※ Turn off the device when not in use for a long time.

Solution

Can't measure the heart rate/respiration

1. Make sure the product is ON.
> If it is off, turn it on or charge it to use it.
2. Make sure Bluetooth is connected.
> Turn the Bluetooth on and connect with the app.
3. Check if the diaphragm is broken or deformed.
> If it is damaged or deformed, purchase it from our online mall and replace it.
4. Make sure the device near the heart of the pet.

- > Adjust the band to position the device near the animal's heart.
5. Make sure the device is in close contact with the pet's heart.
> Adjust the length of the band so that the device fits close to your pet's heart.

Can't connect to Bluetooth

1. Check the Bluetooth activation.
2. Make sure the product is ON.
3. Check if the product connected to another smart device.
> Briefly press the power button once.

Purpose of the product

Dolittle monitors your pet's heart rate and respiration rate.

Scheduling and Sync

- ① Touch the 'Monitor' icon.
- ② Touch the 'clock' icon.
- ③ Set the measurement start time.
- ④ Set the measurement end time.
- ⑤ Reservation setting completed.
- ⑥ Save measurement data after selecting a pet.
- ⑦ Check the data by touching the 'Record' icon.

Warning

⚠	Warning : Failure to follow instructions may result in serious injury or death.
⚠	Caution : Violation of the instructions may result in minor damage to the product.

Precautions for use

⚠ Warning
