| <p>Solder<br/>Board-Component<br/>View 2</p> |  A photograph of a green printed circuit board (PCB) with various electronic components, including resistors, capacitors, and integrated circuits. The board is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the board, showing measurements in millimeters. The board's dimensions are approximately 100 mm in length and 40 mm in width.                                                                       |
| <p>Solder<br/>Board-Component<br/>View 3</p> |  A photograph of an orange printed circuit board (PCB) with various electronic components, including resistors, capacitors, and integrated circuits. The board is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the board, showing measurements in millimeters. The board's dimensions are approximately 100 mm in length and 40 mm in width. A small digital display is visible on the right side of the board. |
