**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, likely a digital scale module, placed on a blue background. The component features a large circular digital display with a black face and white LED digits showing '00.00'. Above the display, the text 'CDFMTF USB AUX' is visible. Below the display, there are Chinese characters 'REC 交流' and a battery level indicator. The PCB is populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller ICs, resistors, and capacitors. A black L-shaped ruler is positioned to the left of the component, with markings in millimeters (0 to 100) and centimeters (0 to 10). A silver metal ruler is positioned below the component, with markings in millimeters (0 to 100) and centimeters (0 to 10).
Antenna View	Bluetooth Antenna  A photograph of the same green PCB component as in the previous view, showing the antenna side. A red rectangular box highlights a small, white, rectangular component on the top edge of the PCB, which is the Bluetooth antenna. A red line points from the text 'Bluetooth Antenna' to this component. The circular digital display and other components are visible in the same positions as in the previous view. The black L-shaped ruler and the silver metal ruler are also present, providing a scale for the component.
