FCC WARNING STATEMENT

Warning: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT SAFETY INSTRUCTIONS

This product is only for charging rechargeable devices and batteries. Using it otherwise may result in explosive devices, battery rupture or leakage, and potential harm to personal or property. Avoid exposing this product to rain or snow.

Do not attempt to disassemble or repair it yourself. Avoid dropping or placing heavy objects on this product.

Supervise children when using this product.

The Car Charger is suitable for use within the temperature range of -10°C to +25°C (14°F to 95°F).

The Wall Charger is suitable for use within the temperature range of 0° to 25° (32°F to 77°F).

Avoid using or storing this product in direct sunlight, near heating equipment, or in other high-temperature environments. Do not immerse in water.

No guarantee can be applied in case of misuse.

The manufacturer declines all responsibility for material damage or damage to physical or moral due to misuse and / or non-compliance with safety instructions. When not in use remove from plug.

CALIFORNIA PROPOSITION 65 WARNING:

WARNING: This product can expose you to DEHP which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.65Warnings.ca.gov.

PRODUCT MARKINGS

CE marking European Conformity, complies with EU requirements, such as EU directives and standards.

Class II equipment, identifies equipment meeting the safety requirements specified for Class II equipment according to IEC 60536. Double insulated.

Power supply meets DOE new standards. This symbol means that the charger operates efficiently and consumes minimal standby power when not in use.

The Intertek logo on the charger ensures it meets safety and quality standards through rigorous testing and compliance with regulations. It provides assurance of quality and safety to users.

This product is designed to minimize potential interference with other electronic devices and is in accordance with FCC guidelines.
